2017 Recap

It was a long, tough road getting our Pittsburgh Chapter from just an idea to a functional organization in the Pittsburgh Community. Collaboration has been a major factor in our board's ability to make ripples in our area.

10 individuals from 10 different employment levels, ages and walks of life came together as a board and created a vision. We are more than ready to make an even larger impact in 2018.

For now, let's look at the things we've accomplished in the few short months since our induction in August.
August
Inducted into the National Association of African Americans in Human Resources by National President, William Rolack and National Vice President of Chapter Development, Larry Gibson.

September
Race Relations in the Workplace: Dr. Yasmin S. Purohit, Robert Morris University’s Chief Diversity and Inclusion Officer, discussed how to have productive discussions about race, among other things.

Biggest HR Trends of 2018

In 2018, a big shift is coming to HR and the focus is on technology. For many years, technology has been used as a tool to help with day-to-day tasks, but in 2018, technology will be making a big move to the workplace. Join us January 18th, 2018 for an interactive event around more trends we expect to see in 2018.
