CAMPUS CARD PROGRAMS

What Is It?
Campus Card programs facilitate secure identification, access and services in a single credential via a transaction processing system for all populations of a campus community.

TECH

Campus Card Technology
A single credential carries electronic mediums and devices in order to provide a unique identity allowing the transaction system to perform security, financial, and privilege-based functions in a controlled environment.

BENEFITS

Essential Component of Campus Life
- Supports University Mission
- Service to University Community
- Sense of Belonging

HOW & WHERE

Are Campus Cards Used

NACCU

National Association of Campus Card Users
The only association specializing in the campus identification and transaction industry. NACCU is dedicated to high quality educational programs, resources, services, and tools. Members are offered networking, partnerships, leveraging technology, problem-solving, insight sharing and professional development.
