NAEMSE Announces a New Member Benefit Starting in 2023!

Starting January 2023, NAEMSE members will have full access to all online Prehospital Emergency Care Journal articles and issues. The mission of the Prehospital Care Journal is to foster and disseminate EMS literature of the highest quality. The Editorial Board is composed of nationally renowned EMS physicians and professionals.

This new member benefit allows NAEMSE members to read all online articles and issues of the journal. PEC publishes eight issues a year, along with the first available online articles, all accessible online!

Starting January 2023, all NAEMSE members will have FREE access to Prehospital Emergency Care, published by NAEMSP. Yes, we said FREE with your NAEMSE membership!

How many ways can we say you are valued as a NAEMSE member? At least eight times a year when each issue arrives as a member benefit to you!

"Access to PEC is certainly an added benefit to NAEMSE membership and was an effort championed by many. This announcement represents shared values and a bridge built between NAEMSE and NAEMSP, two national associations that influence the EMS profession. Supporting EMS Educator access to PEC represents NAEMSE's commitment to quality research and evidence-based medicine as important parts of EMS education and curricula."

– *Dr. Bill Leggio, NAEMSE Vice-President*

"*Best benefit ever!* Top talent needs top education, and our members deserve to be equipped with fabulous resources. What better way to inspire life-long learning than to have cutting-edge EMS research come right to your mailbox?"

– *Connie Mattera, NAEMSE Board and Faculty Member*
