Are you interested in EMS education?

Whether you are new to the field or you are an experienced educator looking to improve your classroom abilities, this course is for you!

This course provides an introduction to a broad span of educational theory that is heavily reliant on brain-based learning and evidence-based best practices for all levels of experience as an EMS educator.

This is not just a lecture, we encourage student engagement and you will have the opportunity to learn from other educators while you learn from NAEMSE!
