NAMB Announces Partnership with Mortgage Currentcy

Washington, D.C., August 10, 2021 – Originators and their Brokers lose a tremendous amount of money and referral opportunities each year due to one issue; lack of knowledge about Mortgage Guidelines. Why? Mortgage guidelines change frequently, are complex to understand, and are time-consuming to research. How much did it cost when you lost just one loan due to getting the guidelines wrong or losing a dispute with an under-experienced underwriter?

NAMB President and Mortgage Currentcy Announce a Partnership for NAMB members to create a solution to this issue. This new benefit will provide members with a much-needed resource to find the answers to guideline questions quickly and easily. Mortgage Currentcy aggregates the guidelines from Fannie Mae, Freddie Mac, FHA, VA, and USDA into easy-to-read subject charts. For example, if you need to know the guidelines for how a Student Loan payment is calculated, you click on the Student Loan Chart, and on one chart, all of the agency guidelines are presented and compared. If you do not find what you need on the Subject Comparison charts, Mortgage Currentcy has a Live Scenario desk, where in the field experts with 25+ years’ experience answer your questions. So, instead of looking at guidelines for each agency individually and wasting time, you can go to one reliable resource to find what you need fast! Mortgage Currentcy also provides educational, social media posts, Lunch & Learns done for you, Mortgage Talking Points developed as content for emails, partner presentations, and scripts for your social media videos. https://mortgagecurrentcy.com/learn-more/
