Imagine what it would be like to fly upside down or cartwheel across the sky in an aerobatic plane. Perhaps you would enjoy building a model plane or even a real one! Would you like to build a balloon, a plane, a helicopter, a glider, or even a space ship? Where will they take you? What would you see? Imagine launching off the side of a hill or mountain, suspended below a hang glider or paraglider, and silently glide to earth. If you’d rather take off from level ground, you might prefer to fly a microlight or paramotor! Maybe you’ll choose to step out an aircraft, into thin air, and drift down to the ground under a parachute!

Think about where you would do “Your Favorite Air Sport.” What will your air or space craft look like? Before you decide, imagine all of the possibilities then pick up your favorite colored pens, pencils, or paint and create a poster of “Your Favorite Air Sport!”
