

California Aviation

The National Association of State Aviation Officials (NASAO) represents the state government aviation agencies of all 50 states, Guam, and Puerto Rico. NASAO is the only organization representing the public interest in all facets of aviation. Our mission is to encourage and foster cooperation among the states and territories, federal government, and private sector in the development and promotion of aviation systems that can safely and effectively serve the needs of citizens, commerce, and communities throughout the United States.
