**National Association  
of Steel Pipe Distributors**

### **NASPD OCTG Specialty Education Course**

Exploring for Energy Products, Tan C. Nguyen, Ph.D., Associate Professor, New Mexico Institute Mining and Technology

OCTG Casing, Tan C. Nguyen, Ph.D., Associate Professor, New Mexico Institute of Mining and Technology

Open Book Test

The purpose of the OCTG Specialty Education Course is to give the attendee an understanding of the basic market dynamics, standard and customer requirements vs technology and supplier limitations by relating form to function through API standardized terminology associated with oil and gas exploration and production.

The OCTG Specialty Education Course qualifies for 6.75 hours. This class is taught in a webinar environment.

Business practices and ethics are included in the courses. The last revision date is November 2019.

Industry experts created the content based on the things steel pipe distributors need to perform their jobs effectively. A survey is taken following each session to confirm the information was taught in an effective manner.

A test is taken at the end of the course to assess the understanding and absorption of the content presented.
