Social Systems and Issues: FOOD & CULTURE  
Honors Breadth Social Sciences, HNR 1340 (freshman), 3 Credit Hours  
Dr. Sarah Gordon  
Utah State University  
Honors Program  
Dr. Christie Fox, Director

General Description:  
This interdisciplinary course explores the complex roles of food and consumption in western and non-western cultures from pre-history to the present day, using socio-historical, developmental, and comparative approaches. Food and foodways are universal aspects of the human experience, across time and geographical boundaries. Class investigates the relation of food to changing and static cultural values, beliefs, attitudes, rituals, and practices. We eat and consider how foods, such as chocolate, sugar, potatoes, and insects have had an impact on different societies and cultures. We discuss current world events and issues related to food and hunger, health and disease. Past enrollment 20-50.

Texts:  
Book: Tannahill, *Food in History.*

E-mail Weekly News Alerts on Food Topics. Students must sign up on:  

Other required readings, short excerpts from books, and journal articles are listed below and available on Library Electronic Reserve.

5/2 FINAL EXAM

Grading policies:
10% Participation in in-class discussion, group work/field trip tasks, preparation
25% Paper and oral presentation on a food
30% Midterm Exam
35% Final Exam

Exams: Exams are short answers and choice of essays covering lectures, readings. Review sessions are offered by our Honors UTF fellow (TA) before each exam.
**Paper:** Required 1 research essay, length 7-8 full pages, plus bibliography, with minimum 6 scholarly sources on one specific *food of your choice* that is *not* listed on syllabus. Students should choose one perspective and theoretical framework based on the methods of sociology, political science, history, or anthropology that we have used in class. Meeting with professor to discuss topic required. Our visits to the library will highlight interdisciplinary resources helpful in the study of food in culture. Project will culminate in a short presentation of research topic in class and question-and-answer session with classmates. Further details on expectations for the paper, useful on-line resources, and an introduction to various Social Sciences research methods will be given in class.

**Participation:** This course encourages active learning. Voluntary active verbal participation is expected in class discussions and group discussions/group work.

**Social:** Evening social with ethnic food, music, and cultural activities (optional).

**Food in Class:** Foods discussed are served on occasion (chocolate, insects, etc.) Please let the instructor know if you have food allergies or dietary restrictions.
