

In response to the COVID-19 crisis, NCPP has compiled a list of NCPP Cooperative Partners contracts with suppliers who provide emergency and health related supplies needed by first-responders and governments. As this is a worldwide crisis, there may be some wait times or delivery delays for specific items, however all cooperative and supplier teams are working to get backorders filled quickly. Feel free to visit these cooperative websites as they are making daily updates. Make contact and getting your agency on the list to receive incoming suppliers might be a prudent move. Please feel free to reach out to NCPP for specific requests/needs, and we will provide whatever resources we have available – consider NCPP as an additional resource to your teams!

Tammy Rimes – NCPP Executive Director info@NCPPEAssociation.org (952) 928-4660
