Reason(s) for Pursuing This Position (100 words or less):

As a profession, we continue to face several challenges including the uncertainty of healthcare reform in the US and scope of practice issues to name a couple. I am eager to partner with NCPTA to continue to progress our profession forward. My goals for obtaining this position include serving the profession, acting as a representative for the collective voice of NCPTA members, continuing to develop leadership skills and cultivating lasting professional relationships.

I plan to continue to support initiatives and legislation that aim to limit infringement upon our scope of practice. I am prepared to help our profession provide evidence of the value of physical therapy and I want to be a part of the solutions for the challenges we are facing. NCPTA has created a very strong position for physical therapists in this state and I want to be a part of and contribute to that legacy. My hope would also be to use this position as a platform to engage others to serve the Association.
