**Reason(s) for Pursuing This Position (100 words or less):**

Finances should not be a deterrent for a student to pursue their passion to serve society through physical therapy. I have been very fortunate in my educational journey to have received financial support through various scholarships and grants. I know any amount of funding can positively impact a student's life and professional path, and I would like to be a part of that impact.

**What Contributions to the Position Will You Make (200 words or less):**

As a new graduate, I can offer a unique perspective on the application process having recently applied for scholarships, grants, and residencies on the national and state level. I am comfortable working in professional teams, willing to lead or take direction as needed, as well as able to appropriately consider all aspects of a situation or applicant with diligence and fairness. Also, as a new professional, I am eager to stay involved in the association, particularly at the local level and believe this position will allow me to bring my passion to the chapter and affect its future by supporting students.
