Reason(s) for Pursuing This Position (100 words or less):

I believe that the state chapter components of APTA should support its students and members. One of the ways to do that is through scholarship and emergency loans. I would like to assist with providing scholarships and loans to deserving individuals as well as explore other types of scholarships and loans that may be beneficial to the membership.

What Contributions to the Position Will You Make (200 words or less):

I have been a fulltime faculty member for 14 years and understand what contributes to a student's success in school as well as in their professional life. I will be able to translate these to making decisions about scholarships. I have experience in determining what characteristics will make a student successful and apply that to determining who should receive a scholarship. I am passionate about student scholarships and will discuss with the board the possibility of increasing scholarships, loans or other ways we can assist the membership.

Thank you for your interest.
