Administrative Details

- Event Name:
  - 20180907 Hurricane Florence
- Reported Costs to Date: $92,231,112
- Reminders:
  - Document all costs in Finance Board
  - Document all activities in Sig. Events Board
  - Update ESF/Situation Report Board
# Incident Objectives

## State EOC

1. Respond to resource requests and taskings within 30 minutes of assignment.
2. Continue to conduct an active public awareness campaign and focus on recovery.
3. Transition survivors out of shelters or consolidate multiple shelters into a single suitable shelter.
4. Execute the NC Disaster Recovery Framework.
5. Develop a plan for post-event impact assessment and recovery activities.
6. Monitor resource use and develop a demobilization plan for the release of resources as the situation allows.

## RCC’s

1. Support local government preparation, response, and recovery efforts for the duration of the event. Mission priorities are life saving, rescue, evacuation, life sustaining power generation and transportation and traffic control.
2. Review and validate assignment of mission requests received by RCC from the State EOC. Execute missions within prescribed timelines.
3. Track all RCC resources and expenditures.
4. Manage conference calls, produce branch tactical plan, situation reports and manage resources.

## Emergency Services

1. Coordinate with SERT partners to mobilize life safety resources when requested throughout event.
2. Maintain catalog of available state law enforcement mission packages to support local safety and security measures throughout the event.

## Business EOC

1. Maintain situational awareness of state and private sector partner status and actions throughout the event.
2. Process re-entry certifications within 30 minutes throughout the event.
3. Private sector donations management and "Speed to the Need" coordination throughout the event.

## Incident Objectives

### Communications
1. Efficiently manage statewide talkgroups for effective allocation in support of anticipated local, regional, and state level operations.
2. Proactively evaluate primary and auxiliary operational communications needs based on forecasted weather, anticipated communication degradations, and anticipated surges in operations.
3. Coordinate with SERT partners to quickly mobilize communication resources when requested throughout the event.

### Risk Management
1. Develop and disseminate impact forecast and analysis products for impacted areas.
2. Monitor and maintain WebEOC for resource requests.
3. Utilize Unmanned Aerial Vehicle platforms to conduct damage assessments as requested.
4. Record High Water Marks from flood affected areas.

### Infrastructure
1. Monitor and disseminate information to SERT partners and counties regarding power outages/disruptions/restorations and road closures throughout the event.
2. Coordinate with Risk Management to evaluate impacts to structures and disseminate relevant information to SERT partners and county officials throughout the event.

### Logistics
1. Respond to resource requests and tasking within 30 minutes of assignment.
2. Provide equipment and commodities in support of impacted communities as quickly as possible.
3. Coordinate travel, lodging and meals for State EOC staff as needed.

### Human Services
1. Execute plans for mass care and sheltering of evacuees, affected persons, pets and commercial animals.

### Recovery
1. Develop plans for post-event impact assessment and recovery activities.
2. Continue to support Counties’ initial PDA requests and work on overall PDA process throughout incident.
3. Coordinate with FEMA to identify and establish housing for impacted citizens as needed.
4. Working with the RCCs, identify, survey, and open DRCs in locations as needed.
