

Speaker Information and Schedule for the CA Session

Date: Saturday, March 14, 2020, from 8am-5pm

Course Title: Simplifying HIPAA to Protect your Patients, People, and Practice

CE Hours Provided: 8 General hours

Speaker: Tracy Hansen, HDMCorp

Tracy has a long history of security and compliance in the finance industry and more recently transitioned that expertise to the healthcare field. She has a knack for simplifying the complex and providing an upbeat environment where her participants can not only learn, but feel comfortable in applying the information back into their workspace.

Course Summary:

During this workshop we will develop a practical understanding of the evolution of HIPAA to its current state. We'll learn the latest philosophies and thinking around HIPAA, and the best practices to ensure compliance. The majority of time will be spend understanding the most common breaches, how to avoid them, and developing a game plan for each individual chiropractic office.
