SHERATON-PLAZA HOTEL
Boston, Massachusetts
SPRING SEMINAR MARCH 27, 1973

With the approach of Spring, our thoughts automatically turn to the New England Hospital Assembly in Boston and our related Spring Seminar. We will again have the seminar at the Sheraton-Plaza.

The program will include a presentation by NFPA which will be educational as it will explain what they are and how they effect us. You are all encouraged to attend.

The registration fee is $10.00 and it offers a luncheon on Tuesday.

You won't want to miss the Spring Seminar — make your reservation today — see you there.

WELCOME ABOARD

JAMES BLACK
Assistant to Plant Superintendent
St. Francis Hospital
Hartford, Connecticut

ROSCUE B. FISHER
Building Engineer
Northeastern Vermont Regional Hospital
St. Johnsbury, Vermont

HENRY E. MANNING
Assistant Engineer
Clinton Hospital Association
Clinton, Mass.

MILTON SCHWEITZER
Fanny Allen Hospital
Winooski, Vermont

THOMAS GALLIGAN

Tom presently resides in New Bedford, Massachusetts with his wife and two daughters. Tom’s family seems to be hospital orientated for both his daughters have gone into nursing; one a graduate R.N. and the other a student nurse.

He attended New Bedford Schools, plus South Eastern Massachusetts Institute of Technology, and is a graduate of North Carolina Vocational Textile School in Belmont, North Carolina.

Mr. Galligan is a World War II, U.S.N.R. Veteran and served in both the Pacific and North Atlantic theaters. Another point of interest in his

From the editor...

We are hopeful that on a long range plan basis we can make this Newsletter more "newsy" and more educational. In order to do this we need all of you to participate in the submission of material. Do you know of someone in our organization that has received a special award? How about retirements? Any research projects that would apply to our field? How about articles you have read that you believe would be good to reprint in our Newsletter?

If you make a contribution I'm sure the entire organization will benefit. Remember — output is a function of input. Send anything you want, to me — give me the problem of having too much material to print.

Thanks: Norman B. Fischer, Editor
Director of Engineering
New Britain General Hospital
New Britain, Connecticut 06050

MEET OUR PRESIDENT

WILLIAM H. WHITE

Bill is the Administrative Engineer at Framingham Union Hospital, Framingham, Massachusetts. Prior to this he was at Roger Williams General Hospital, Providence, R.I. and Richfield Oil Company. Our President is a past State Rep to NEHERS from Rhode Island, a past chairman of the Engineers' section for the Hospital Association of Rhode Island; a member of the American Society of Hospital Engineers and is on the special advisory committee to the Massachusetts Hospital Association on O.S.H.A.

He was born in New Bedford, Massachusetts

Mrs. Theodore S. Gold, president of Newington Children's Hospital receives check from NEHERS secretary Andrew Triano.

Society Expresses thanks to the Newington Children's Hospital Auxiliary — Newington, Connecticut. At our Fall Seminar, they graciously offered to provide a "Day in Connecticut" for the ladies that attended. To express our appreciation, our society presented the hospital with a check for $100.00. Here is a brief from their letter to us: "It was indeed our pleasure to entertain the wives of the Society's membership. We are always glad to tell of our very special institution. And we enjoyed hearing about your organization and the hospitals which are members. I should say that it was a mutually pleasant and useful experience for us all."

and attended Elementary and High School in East Providence, R.I. and the University of Rhode Island.
Fall Seminar 1972 in Reflection

If you missed it, it was a great loss. We had excellent presentations on OSHA, Security, Electrical Safety, Mechanical- Electrical Systems Control. The speeches were extremely motivating and we had a good question and answer approach to the entire program. The main dinner speaker, Father Keating, was outstanding and did much to add to the flavor of our seminar.

It is interesting to note that the ladies had a wonderful time at the Newington Children’s Hospital. See what your wife missed. If you didn’t come see pictures of the seminar throughout this Newsletter.

“The room was hot and so was the subject — OSHA.”

“The gentlemen from Vermont really enjoyed the main dinner.”

“Isn’t it strange how Ray got himself in the middle again?”

“Our officers always seem to stay together.”

“Aren’t we proud of our past presidents.”

“Connecticut was well represented — why not the seminar was in Connecticut.”
SEMINARS COMING

AMERICAN SOCIETY FOR HOSPITAL ENGINEERS SEMINAR coming to Boston June 25th and 26th. Our chapter is honored to be selected as the host. As host we have the responsibility of supporting it and this should not be difficult because of the centralness of Boston for the entire New England area. Too often these educational seminars are conducted at great distance from our hospitals and therefore we are unable to attend. Let’s show them why we were the recipients of the 1971 Chapter-of-the-Year-Award.

FALL SEMINAR PLANNED FOR first week of October in Newport, Rhode Island. Tom Galligan will be working on this program also and therefore we expect a motivating program and one which will cause us to want to attend. We should all remember that these seminars are really educational and we as Engineers must continue our education expansion to maintain continuity with a rapidly changing field. Plan your calendar and set aside the end of the first week in October.

THOMAS GALLIGAN (from page 1)

military life was his activeness in the 16th fleet mothballing carriers.

His favorite hobbies are antique tools, gardening, and furniture refinishing.

Because of Tom’s excellent record at St. Lukes Hospital in New Bedford as Director of Engineering and Maintenance we know our Spring Seminar will be a great success.
