

ASA 2019: Summer in Chicago

July 19–22

Annual Meeting at Wheaton College

Meeting Theme: Exploring Creation

A large, light-colored stone sign for Wheaton College. The sign is rectangular with two stone pillars on either side, each topped with a black lantern. The text is engraved in dark, serif capital letters. The background is a lush green lawn with a row of red and pink flowers in front of the sign. Tall trees are visible behind the sign.

WHEATON COLLEGE
FOR CHRIST AND HIS KINGDOM
SINCE 1860

Key verse: Colossians 1:16

MEYER SCIENCE CENTER

"All things were created by Him and for Him." Colossians 1:16

Confirmed Plenary Speaker: Gerry Gabrielse

Founding Director of the Center for Fundamental Physics at Low Energies, and Board of Trustees Professor of Physics at Northwestern University

Member of the US National Academy of Sciences and Fellow of the American Physical Society

Leads international ATRAP Collaboration at CERN

Recipient of multiple awards for research and teaching

Confirmed Plenary Speaker: Deborah Haarsma

President of *Biologos*

Astrophysicist, formerly Professor & Chair of Physics and Astronomy at Calvin College

Co-author of *Origins: Christian Perspectives on Creation, Evolution, and Intelligent Design*, among other contributions

ASA fellow

Confirmed Plenary Speaker: Jennifer McNutt

Associate Professor of Theology and History of Christianity
at Wheaton College

Director of Wheaton's M.A. programs in Theology and
History of Christianity

Fellow of the Royal Historical Society

Author of multiple books and contributions from the history
of the Reformation, including the history of science

Confirmed Plenary Speaker: Ken Miller

Professor of Biology and Royce Family Professor for Teaching Excellence at Brown University

Author of *Biology by Miller & Levine*, *Finding Darwin's God* (1999), *Only a Theory* (2008), *The Human Instinct* (2018)

Lead expert witness in *Kitzmiller v. Dover*

Recipient of numerous prizes for promoting the public understanding of science and evolution

Confirmed Plenary Speaker: James Sherley

Founder and Director of Asymmetrex (develops and markets technologies in stem cell medicine)

MD/PhD from Johns Hopkins University School of Medicine

Former research appointments at the Fox Chase Cancer Center, MIT, and Boston Biomedical Research Institute

Recipient of numerous awards for research

Confirmed Plenary Speaker: Gayle Woloschak

Professor of Radiation Oncology, Radiology, and Cell/Molecular Biology at the Feinberg School of Medicine, Northwestern University

Radiation biology and the bionanotechnology expert

Associate Director, Zygon Institute for Religion and Science, Lutheran School of Theology at Chicago

Directs Epic of Creation annual lecture series

Special Symposium: “We believe in creation”, a tribute to Richard Bube

Professor of Materials Science and Electrical Engineering, Stanford

1971 *Journal of American Scientific Affiliation* article entitled
“We believe in creation” was key in directing the ASA toward
harmony instead of dichotomy between creation and evolution

Journal editor 1969–1983, author of 125 contributions over the years

We will send a specific request for contributions with the meeting
announcements this year, looking for presenters to discuss the
significance of Bube’s work, and to carry forward his legacy

Potential field trips and other fun

Potential field trips and other fun: Chicago

Museum Campus: Field Museum of Natural History, Shedd Aquarium, and Adler Planetarium

Art Institute of Chicago

Museum of Science and Industry

Potential field trips and other fun: Chicago
