

NFRC 7000-2025 and 7100-2025 Program Documents Open to Public Comment

Drafts of NFRC 7000-2025 [E0A1]: *NFRC Product Certification Program* and NFRC 7100-2025 [E0A1]: *Windows, Doors, and Standard Skylights -- PCP Product Requirements* are open to a public comment until Friday, **August 31, 2026**.

For NFRC 7000, proposed changes have been made based on previously received suggestions, comments provided with Schedule I and II submissions, and periodic staff review. The proposed revisions to NFRC 7100 are intended to improve clarity based on participant feedback.

The revisions clarify:

- the continuation of requirements in NFRC 700-2026 [E0A3]: *Product Certification Program -- Sunset Exceptions*,
- minor clarification of procedures (such as clarification of calendar versus business days),
- the requirement for continuing maintenance of Schedules I and II, and
- how gas concentration non-compliance is determined.

Versions of the document open for comment are provided on [NFRC's Documents in Public Review page](#), which includes the form for feedback submission. Once all received comments are addressed, NFRC staff shall make the decision to publish the document or make the document available for a another round of comments.

Questions may be directed [Michelle Scism](#), Senior Manager, Quality and Accreditation.
