

Technical Bulletin 2026-14

IGDB Version 113

IGDB Version 113 is now available at the following URL:

<https://windows.lbl.gov/igdb-downloads>.

- This glazing data may be used immediately. It is important that you also update your IGDB because some existing glass IDs may have had their optical properties change.
- Depending on the last time you downloaded an IGDB file, you may be required to set up an account to download the new version.

The Applied Film and Interlayers lists have been updated and are eligible for NFRC Certification.

The links to the approved lists are:

- [Applied Films](#)
- [Laminate Interlayers](#)

Note: The Applied Films list at that link is under the heading NFRC Applied Film Procedure. The Laminate list at that link is under the heading NFRC Laminate Procedure.

If you have difficulties downloading and updating the IGDB or CGDB, contact Robin Mitchell of LBNL at: RDMitchell@lbl.gov.

If anyone has questions on the IGDB, approved interlayer/applied film lists, or the CGDB, contact [Steven Urich](#), Director, Quality Assurance.

[National Fenestration Rating Council](#)

NFRC envisions a future where every window, door, and skylight purchase decision is made using the NFRC label to evaluate energy performance.
