

MEMBER BENEFITS

Accelerate your work to keep patients and health care colleagues free from harm with an organizational membership in the NPSF Stand Up for Patient Safety Program.

Learn best practices from leading experts, connect with peers working to prevent medical harm across the globe, and make meaningful improvements in patient and workforce safety.

Membership is open to hospitals, physician practices, ambulatory facilities, health systems, government agencies, and not-for-profit organizations.

VALUE

A cost-effective way to educate your entire organization

In our environment of value-based care, attention to patient and workforce safety is more critical than ever.

Obtain tools, education, and shared learning opportunities to support patient safety initiatives across the care continuum. Most benefits are open to all staff.

ENGAGEMENT OPPORTUNITIES

Ready-to-use materials for engaging patients and providers

Ask Me 3® Materials and Cobranding Rights. Ask Me 3 is an educational program that encourages open communication between patients and health care providers. Members receive production-ready and printer-friendly Ask Me 3 materials and have the option to easily customize materials with organizational logos.

Patient Safety Awareness Week Toolkit. The toolkit provides themed materials and customizable content to raise awareness at the local level during this awareness-building campaign sponsored annually by NPSF.

TIMELY INFORMATION

Timely updates on patient safety research and industry trends delivered directly to you

Current Awareness Literature Alert. A twice-monthly publication that identifies and summarizes emerging research related to patient safety from a wide array of industry resources.

Stand Up for Patient Safety e-News. A monthly publication that provides updates on emerging patient safety news, industry trends, and NPSF events.

Patient Safety & Quality Healthcare. A bi-monthly magazine focused on emerging patient safety and industry trends.

Special Discounts. Members receive discounts on respected patient safety journals, including *BMJ Quality & Safety* and the *Journal of Patient Safety*

EDUCATIONAL RESOURCES

Complimentary access to NPSF learning opportunities for individuals and teams

Online Patient Safety Curriculum. Obtain the foundational knowledge necessary to understand the context, key principles, and competencies associated with the discipline of patient safety with this ten-module, self-paced, course. Most Stand Up member organizations receive complimentary access for two staff members and discounted pricing for an additional five staff members to take the Patient Safety Curriculum. Access for system members varies based on number of enrolled facilities.

Professional Learning Series Webcasts. Complimentary access to webcasts featuring expert faculty discussing timely safety topics. An unlimited number of participants is allowed per connection to allow health care teams to learn together.

Online Self-Paced Educational Modules. Complimentary access to online self-paced educational modules on timely safety topics developed by experts in the field.

Discounted Certified Professional in Patient Safety (CPPS) Certification Exam and Exam Review Course. Discount on the exam to earn this credential, and also a discount on the NPSF course offered to assist in preparing for the exam.

CONNECTION AND SHARED LEARNING

Connect, communicate, and learn with like-minded organizations and professionals

Registration Discount for the Annual NPSF Patient Safety Congress. A 20% registration discount encourages attendance at this preeminent patient safety event. Attendees collaborate with key industry leaders, share new strategies, gain practical knowledge, and devise innovative solutions to foster change.

Member Directory. Members can connect with their peers for networking and shared learning opportunities using the searchable Member Directory.
