

NSPS Military Committee

NSPS Fall 2024 Report

This Summer NSPS has Career Summits at the following Military locations:

Ft Leonard Wood, MO	June	Bob Akins, Norman Ellerbrock, Mike Zahner
McGuire-Dix-Lakehurst, NJ	July	Joe Dolan
Fort Eisenhower, GA	July	Jeff Clendenning
Ft Leonard Wood, MO	August	Jeff Clendenning, Norman Ellerbrock
Fort Campbell, KY	September	Jeff Clendenning, Thomas Simmons

Over 1400 Service Personnel and Spouses attended the 5 locations attended by NSPS this summer. We were able to introduce and encourage them to consider Surveying as a Profession when they leave the Military Service. We also had the privilege of meeting the Air Force instructors for surveying at Ft. Leonard Wood. They invited us to sit in on one of their classes and visit the students in the field practicing with total stations and GPS units.

I was able to point many interested Military members to NSPS directors in different states to help them locate a surveyor near their home town.

We plan to attend more states next year and would like the assistance of all State Directors and their State Associations to participate. Any Survey Companies looking to hire can attend these Career Summits with NSPS and conduct interviews.

Special Thanks to Trish Wilborn(NSPS) and Christian Cernauskas(NCEES) for all the material and mailing it out to all locations.
