Legislative Committee Report

2026 Legislative Session Overview

The MSPS lobbyist reported that the 2026 Missouri legislative session was highly productive for the surveying profession. All surveyor-related legislation supported during the session was successfully passed, including measures addressing increased funding for the Missouri Land Survey Program and matters involving the Geospatial Advisory Board.

Special recognition and appreciation were extended to Darrell Pratte and Ray Riggs for their testimony and efforts in supporting these bills throughout the legislative session.

Legislative and Political Updates

The lobbyist also provided updates on several important developments affecting Missouri's legislative landscape.

MSPS 2026/2027 Calendar
