2026 Projects and Accomplishments

- DAS will once again host its annual conference and expo in Rehoboth Beach, DE in November. It continues to be a successful combination of education and networking by surveying professionals from Delaware and four surrounding states. Presentations will include Writing Legal Descriptions; Rights of Way and Easements; Quality Assurance for Professionals, Ethics for Surveyors; Surveyor's Role in Adverse Possession; Being on the Witness Stand, Basis of Bearings; How to be an Expert Witness; Geodetic Datum Transformations; Riparian Rights, Working Along Bodies of Water; Interpreting NGS/CO-OPS Control Data Sheets; Least Squares for Surveyors; New Datums – New Coordinates – New Heights; Property Boundary Evidence; Floodplain Management & the NFIP; and more.
- DAS hosted the 8th Annual Chuck Surguy Memorial Golf Tournament in Honor of Danny Simmons. This event continues to raise money for the Scholarship Fund which is used to support young people who are interested in surveying as a career. The money raised pays the registration fee for students to attend the annual fall conference where they are introduced to surveyors, classes, and equipment and applications shown by our vendors. We've found this to be an excellent way to garner interest by students and the professional registrants enjoy it as well.
- DAS holds several general membership meetings throughout the year where professionals from the surveying community meet to enjoy good food and catch up with the latest news. At the last meeting in September we invited James Shaw, Jr. to give a one-hour presentation, "Realty Capture Techniques. Attendees received one PDH credit.
- On-going and future programs will include supporting the Boy Scouts of America Surveying Merit Badge, DelDOT Right of Way Monumentation, NCEES Mapping Program and others.
- DAS is always looking for ways to increase membership for both licensed professionals as well as unlicensed technicians, as well as young surveyors.
- DAS has made a concerted effort to become more vested in NSPS and to that end, our NSPS representative is attending NSPS events and reporting back to DAS. We feel this is a great way to strengthen our organization.
- Attended "Hiring Our Heroes" and manned a booth at the event. This was a Career Summit held by Dover Air Force Base and Wilmington College in July to help service members, veterans, military spouses and military caregivers transition to different careers.
