We strongly advise that you discuss with your physician any medical information received from the Oley Foundation through conference presentations, informal discussions, the newsletter, etc.—before you make any changes in your health care.

We do our best to offer a selection of foods that we hope will meet your dietary issues. If you have a specific need, please inform Cathy at registration and we’ll try to help.

Smile! You’re on Camera!

Oley will be taking photos and videotaping in the conference sessions and events. This year the main sessions are being streamed live! These images may be used online or in promotional materials without further agreement. If you do not want to be photographed at the conference, you may have opted out with your online registration; alternatively you can sign a release at the registration table, or e-mail your name and an image (so we can identify you) to Lisa Metzger at metzgel@mail.amc.edu. We can’t guarantee that your image won’t appear in group shots or on the video filmed at the conference, but we will do our best not to publish close-up photos of you. Further, if you are in a session that is being videotaped, please consider how much personal information you want to share.
General Information

Registration and Conference Information

Information about all aspects of the conference is available at the registration desk. The desk will be staffed Wednesday noon to 5:00 p.m., Thursday 8:00 a.m. to 5:00 p.m., and Friday 8:00 a.m. to 5:00 p.m. All conference activities will be held at the Hyatt. A map of the meeting rooms is on the back cover of this program.

Medical Support/Emergency Services

For an emergency: Contact your primary care physician (if time allows) to discuss the proper treatment plan prior to going to a hospital. If time does not allow, call 911. The following hospital has been alerted as to the increased potential for a GI or HPEN incident, and is prepared to meet your needs:

Greenwich Hospital
5 Perryridge Road
Greenwich, CT 06830
(203) 863-3000

To meet unexpected supply needs: Contact your homecare company first. If your homecare company cannot meet your needs, Coram CVS/specialty infusion services has offered to help troubleshoot issues over the phone (like a pump malfunction), and/or to provide back up emergency nursing and pharmacy infusion services. Call the Wallingford, CT, Coram branch at 800-458-3431 or 203-697-4100 (24 hour availability) and identify yourself as an Oley Conference participant. They will need contact information for your physician in order to obtain orders. They can dispense prescribed fluids, additives, and supplies with a physician’s order. They can also help troubleshoot a consumer’s pump, provided it is one with which they are familiar.

Ambassador Workshop/Volunteer Info Session

Planned for “official” Oley volunteer Ambassadors, but open to everyone with an interest in serving Oley via networking, social media, marketing, graphic design, etc. Meet us in Winthrop AB, Wednesday at 1 p.m.

First-Time Conference Attendee Orientation

We invite all first timers to Sun Court to learn more about what to expect at this meeting and enjoy networking with Oley staff, Trustees, Oley Ambassadors and others attending for the first time. This area will be reserved for you to relax, ask questions, exchange ideas and discuss experiences in an informal setting.

Welcome Reception/Awards Ceremony

We kick off the meeting Wednesday at 7:30 p.m in Sun Court. We’ll celebrate Oley Annual Awards recipients, and meet friends. Dessert-type refreshments will be served.

Continental Breakfast

Thursday and Friday mornings, attendees are invited to a delicious breakfast. Join us in Sun Court.

Family Room—Riverside Ballroom

Thursday & Friday, 8:45 a.m.–noon, and 2:45–5:00 p.m.
Pre-registration required. All children’s items should be labeled.
Main session presentations will be projected into a relaxed, family friendly room in the morning. In the afternoon, panel sessions will be held with topics specific to pediatric care and parenting issues (see topics on page 3 and 5). Children will stay with or close to their parents and other children. Activities/entertainment will be planned in the foyer (just outside of the Family Room, see list of activities below) and volunteers will be available to help occupy the children. Comfort stations will be available in the rear of the room.

Special arrangements can be made for a parent to attend the Tube Feeding Workshop, or a different, specific breakout session if desired. Parents are encouraged to split up and attend different sessions so they return home with as much information as possible.

Activities for Children:

• Thursday morning: Children can play video games inside a large mobile gaming truck or outside on a big screen.
• Thursday afternoon: Children will enjoy games, puzzles, and craft activities.
• Friday morning: Children will enjoy games, coloring, and stuffed animal t-shirt decorating.
• Friday afternoon: Sponsored by Option Care, children will enjoy Noah’s Ark Animal Workshop where they will make their own stuffed animal, and be dazzled by the Amazing Andy with magic, juggling and a LIVE RABBIT!

Main Sessions—Regency Ballroom DEF/Riverside Ballroom

Formal presentations are coordinated to boost your understanding of the therapies that sustain you or your loved one. Don’t miss these world-class speakers discussing topics that will inform and improve your daily experience. See the list of topics covered on pages 3 and 5.

Exhibit Hall

Learn about parenteral and enteral products and services, Thursday and Friday, noon to 2:30 p.m. in the Regency Ballroom ABCG and Foyer. Complimentary lunch will be served both days.

Consumers, family members, and faculty 16+ years of age are encouraged to complete an Exhibit Hall Score Card for a chance to win a $200 gift card! Turn in your completed card at Oley registration by 1:45 p.m. on Friday to enter the drawing. Many of the vendors will also have raffle contests to enter. Drawings will be held at approximately 2:00 p.m. on Friday in the ballroom; you must be present to win!

Discounted parking for Oley guests is $5/day.
Hydration Station
Stop by the Hydration Station Thursday and Friday, noon to 2:30 p.m., to sample oral rehydration solutions and learn how they might benefit you. Saturday morning, walkers should pick up their water bottle and a choice of rehydration mix at the walkathon registration. Thanks to ThriveRx for sponsoring the station, and to DripDrop® and Trifecta Pharmaceuticals for donating product samples.

Your Choice! Breakout Sessions, Family Room Panel, or Workshop
Sponsored by Halyard Health and Nestlé Health Science, the Tube Feeding Workshop will be held on Thursday from 2:45 to 5:00 p.m. in the Regency Ballroom DEF. We will break for 15 minutes so parents can pick up their children, then resume at 5:15 with a Collaborative Conversation on Tube Feeding. See page 4 for a list of topics to be covered.

Alternatively, you can choose to attend the parenting/family-centered panel discussions in the Family Room (Riverside Ballroom, see pages 3 and 5 for a list of topics).

A third choice is to participate in the breakout sessions which offer a chance for smaller, group discussion. See page 4 for Thursday's breakout session topics and locations, and pages 5–6 for Friday's.

Oley Benefit Silent Auction
The fun begins Thursday at 7:30 p.m. when the bidding opens in the Regency ABCG Ballroom. Drop off donated items at the registration desk before Thursday afternoon. Visa, MasterCard, and American Express will be accepted, as well as cash and personal checks.

The silent auction and raffles are intended to raise funds to offset conference expenses. Conference attendees, including Oley staff and Trustees, conference faculty, and the family members and friends thereof, are encouraged to participate in the silent auction bidding and open raffles. Items will be “sold” to the highest bidder at the closing of the event, or given to the winning ticket holder.

Jammin’ Jammies!
Sponsored by Abbott Nutrition, the event begins at 8:00 p.m. Friday in the Mead A&B and Mead C rooms. The PG movie will be SING; the G movie will be Rio 2. Let your child create funny memories with friends in our photo booth! Children are welcome to arrive in jammies if they'd like. Signed permission required.

Oley Walkathon
Pick up a pledge sheet Wednesday through Friday, and join us on Saturday! All ages are welcome; the walk will be easy enough for everyone who wants to participate. Turn in your completed sheet with donations and pick up your t-shirt at the Oley registration desk on Friday, or outside Sun Court Saturday morning from 9:00 a.m. to 10:00 a.m. Bottled water, with a choice of oral rehydration solution packets to mix in, will be available for walkers Saturday morning courtesy of the ThriveRx sponsored Hydration Station. The walk begins at 10:00 a.m. and will be approximately one mile.

Breakfast & Brainstorming
Immediately following the Annual Walkathon, join us in Sun Court for breakfast and the closing session planned to enhance your understanding of the therapies that sustain you. Answer a nagging doubt or clarify something you heard in a session or read on the web.

We’ve assembled a great group of people with experience to tackle questions on: Living and Thriving NPO; Swimming or Not with a Central Line; Reimbursement from All Angles; Staying Hydrated; Advocating for Yourself or Your Child: How and Why; Transitioning to ENFit; Vascular Access Issues; and Overcoming Obstacles. Your questions need not be limited to these categories. Bring them all and we’ll brainstorm ideas with others in the room.

Index cards will be available at the Registration/Information Desk. Pick them up, jot down your questions. Drop them off later or bring with you on Saturday.

Focus Groups/Market Research
The Oley Foundation recruits consumers, caregivers, and occasionally clinicians, to participate in market research. This helps industry create better products, ensures the end-user voice is heard, and provides funding for Oley programs. The research is initiated and funded by industry. Oley’s role is simply to connect industry with the consumers of their products. These events are open by invitation only, on a first-come, first-served basis, for individuals who fit within the research parameters. If you are interested in participating in future groups, it’s essential that we have your current e-mail, telephone number, and medical information (diagnosis, therapy, etc.). Please take a minute to update your Oley membership profile. Stop by the registration desk to learn how to update your profile.

Please don't leave needles lying around in your hotel room. There will be a sharps container at the registration desk, if you didn't bring your own. Syringes without needles or blood can be disposed of in a non-see-through bag in the regular trash.
Program

Wednesday
12:00 p.m. — 5:00 p.m.
Early Registration/Information
Winthrop Pre-Function

With more than thirty years of experience and nearly 1,200 skilled clinicians, Coram offers personalized, compassionate care. Leading the industry with commitment from the heart, the company maintains a 96 percent patient satisfaction rating.

**CAREALINE PRODUCTS**
17 Conant St, #61
Danvers, MA 09123
www.carealine.com
Innovator and manufacturer of the CareAline Central Line Protection Wrap and the CareAline PICC Line Protector Sleeve. External Securement Devices for PICC and CVCs.
Covalon Technologies Ltd.
Address: 1660 Tech Ave #5, Mississauga, Ontario, Canada L4W5S7
Website: www.covalon.com

Covalon Technologies Ltd. is a leading healthcare product innovator, manufacturer, and supplier in the areas of advanced wound care, hospital associated infection prevention, perioperative care and medical device surface modification. Covalon’s IV Clear™ — Antimicrobial Clear Silicone Adhesive Securement Dressing with Chlorhexidine and Silver is indicated to cover and protect vascular access devices.

Fresenius Kabi USA*
Address: Three Corporate Dr, Lake Zurich, IL 60047
Website: www.fresenius-kabi.us

Fresenius Kabi is a global health care company that specializes in lifesaving medicines and technologies for infusion, transfusion and clinical nutrition. Its products are used for critically and chronically ill patients. It puts lifesaving medicines and technologies in the hands of people who care for patients.

Functional Formularies*
Address: 806 E Franklin St, Centerville, OH 45459
Website: www.functionalformularies.com

Functional Formularies® has revolutionized clinical nutrition by offering the world’s first and only certified organic whole food feeding tube formulas and oral meal replacements. Liquid Hope and Nourish are nutritionally complete, non-GMO and contain no added sugar in any form. The products are free of dairy, gluten, soy, and corn.

GEDSA
Address: PO Box 297707, Columbus, OH 43229
Website: stayconnected.org

GEDSA is a collaborative workgroup formed to introduce the new ISO 80369 standard series. GEDSA and its members work together to support the StayConnected initiative and introduce new healthcare connectors to reduce the risk of medical device tubing misconnections.

G-PACT
Address: 702 Winebary Cir, Lewisberry, PA 17339
Website: www.g-pact.org

G-PACT is an international non-profit leading the fight against paralytic conditions of the digestive tract including, but not limited to, chronic intestinal pseudo-obstruction and colonic inertia since 2001. It conducts and funds research, increases awareness, provides multiple free resources to patients and caregivers, offers support programs, and advocates on Capitol Hill.

Gus Gear, LLC
Address: 6196 Penn Dr, Butler, PA 16002
Website: www.gusgear.net

Gus Gear is the creator of the central line wrap, a device to lock down and protect your child’s precious central line. Gus Gear says its protector is “essential for all children with a central line.” It also makes fun, functional covers for ostomy pouches, feeding tubes, and other health-related devices.

Halyard Health*
Address: 5405 Windward Pkwy, Alpharetta, GA 30004
Website: www.halyardhealth.com

Halyard Health, your Preferred Enteral Partner, says it delivers “clinically-superior products and remarkable service to improve patients’ wellbeing.” The company’s recent acquisition of Corpak MedSystems Inc. provides you with a sole source vendor option with the most comprehensive portfolio of enteral feeding solutions and advanced placement technologies. Visit www.halyardhealth.com/digestivehealth or www.mic-key.com.

Kate Farms
Address: 101 Innovation Pl, Santa Barbara, CA 93108
Website: www.katefarmsnutrition.com

Kate Farms makes meal replacement shakes for oral and tube feeding. Its formulas are free of the top eight allergens (no dairy, wheat, soybeans, peanuts, tree nuts, eggs, fish, or shellfish) and corn, made with organic ingredients, plant-based protein, twenty-eight “superfoods,” and have a complete amino acid profile.

Medtronic*
Address: 15 Hampshire St, Mansfield, MA 02048
Website: www.medtronic.com

Medtronic is a global healthcare solutions company committed to improving the lives of people through medical technologies, services, and solutions. Its mission is to contribute to human welfare by application of biomedical engineering in the research, design, manufacture, and sale of instruments or appliances that alleviate pain, restore health, and extend life.
MIGHTY WELL™
30 Caldwell St
Charlestown, MA 02129
mighty-well.com
Mighty Well™ creates medical accessories that put strength, confidence, and mobility back into the toolkit for spoonies and anyone coping with a health setback. Its first product, the PICC™ Perfect PICC Line Cover, allows you to do your treatments without exposing your insertion site to contaminants and gawkers alike!

MITOXANTRONE POCorp
PO Box 51474
Boston, MA 02205
www.mitoaction.org
MitoAction is a nonprofit organization dedicated to improving the quality of life for children, adults, and families living with mitochondrial disease through support, education, outreach, advocacy, and clinical research initiatives.

MOOG MEDICAL DEVICES GROUP
4314 Zevex Park Ln
Salt Lake City, UT 84123
infinityfeedingpump.com
Moog Medical Devices / Curlin Infusion-Zevex Enteral offers a full line of infusion pumps and enteral pump devices, disposable administration sets and accessories. The company's pumps combine the convenience of small size ambulatory pumps and the sophistication of hospital devices.

NATIONAL HOME INFUSION ASSOCIATION (NHIA)
100 Daingerfield Rd
Alexandria, VA 22314
www.nhia.org
The National Home Infusion Association represents providers and industry partners in the home infusion field.

NESTLE HEALTH SCIENCE*
12 Veeland Rd
Florham Park, NJ 07932
www.nestlehealthscience.com
Nestlé Health Science, a wholly owned subsidiary of Nestlé© S.A., is engaged in advancing the role of nutritional therapy in healthcare. Through investing in innovation and leveraging leading edge science, it brings forward innovative nutritional solutions with clinical, health, economic value, and quality of life benefits.

NUTRICIA NORTH AMERICA
6717 Setters Run
Victor, NY 14564
www.nutricia-na.com
Nutricia North America pioneers and delivers specialized nutrition solutions and best care for medical professionals and their patients.

NUTRISHARE*
9850 Kent St
Elk Grove, CA 95624-9483
www.nutrishare.com
Nutrishare, Inc. has specialized exclusively in home TPN pharmacy services since 1991. Nutrishare provides home TPN services to consumers throughout the United States.

RARE NEW ENGLAND
31 Hawthorne St
North Attleboro, MA 02760
www.rarenewengland.org
RNE’s mission is to bring together New England patients and families touched by rare and complex disorders. It builds foundations for support, creates awareness of available resources, and offers educational opportunities to improve patient quality of life.

REAL FOOD BLENDS, LLC*
PO Box 2126
Chesterton, IN 46304
www.RealFoodBlends.com
Real Food Blends believes that all people deserve easy access to real food. It makes 100% real food meals for enteral nutrition, offering four pureed meals, which provide nutritional variety and the benefits of a whole food diet. Covered by many insurance plans (HCPCS B4149). Learn more at www.RealFoodBlends.com.

OPTION CARE*
3000 Lakeside Dr
Bannockburn, IL 60015
optioncare.com
Option Care is a leading provider of home infusion services for nearly forty years. Local, highly experienced teams of pharmacists, nurses and dietitians provide high touch, comprehensive nutrition support to help prevent and treat malnutrition. Option Care supports consumers through its ninety infusion centers across the country.
SBS CURE PROJECT
18654 Kalmar Path
Lakeville, MN 55044-5426
www.sbscure.org
Non-profit focused on raising funding for research into cures/treatments for short bowel syndrome/intestinal failure.

SBSNE, INC.
PO Box 100171
Cranston, RI 02910
www.sbsne.org
The Short Bowel Syndrome Foundation for Children of New England, Inc. (SBSNE, Inc.) is a 501(c)(3) non-profit charitable organization which was created to provide family support for children afflicted with gastrointestinal conditions, birth defects, and diseases which have led to short bowel syndrome (SBS) and their healthcare providers.

Shire
300 Shire Way
Lexington, MA 02421
www.shire.com
Shire is a leading global biotechnology company focused on serving people with rare diseases and other highly specialized conditions. It strives to develop best-in-class products across its core therapeutic areas including Hematology, Immunology, Neuroscience, Ophthalmics, Lysosomal Storage Disorders, Gastrointestinal/ Internal Medicine/Endocrine, Hereditary Angioedema, and Oncology.

SOLEO HEALTH*
7850 Collin McKinney Pkw
Ste 101
McKinney, TX 75070
www.soleohealth.com
Soleo Health is an innovative national provider of home and alternate-site specialty infusion. Its team of experienced clinicians provides exceptional care in managing complex disease states through comprehensive pharmacy, nursing, education, and therapy management programs.

THRIEVERX*
7167 E Kemper Rd
Cincinnati, OH 45249
thrilverx.diplomat.is
ThriveRx, a Division of Diplomat, is celebrating ten years of taking care of HPEN consumers! Its mission is to promote independence and empower patients and their families. ThriveRx is also a proud Gold Medallion Partner of the Oley Foundation. Visit the company at thriverx.diplomat.is

TEEN STUDY
School of Nursing
University of Kansas Medical Center
3901 Rainbow Blvd MS-1043
Kansas City, KS 66160
nursing.kumc.edu
University of Kansas School of Nursing conducts research funded by the National Institutes of Health to learn how mobile access to HPN Professionals and Peers affects home care management.

TRANSPORTATION SECURITY ADMINISTRATION (TSA)
334 Ella Grasso Trnpk
Windsor Locks, CT 06096
www.tsa.gov
TSA employees are responsible for safeguarding the traveling public. Sometimes travelers have special needs and require assistance. Come to the TSA exhibit to learn what services are available for you, such as medical exceptions to the normal procedures, specialized screening for medical equipment and supplies, and so on.
TROVITA HEALTH SCIENCE
230 South Broad St
17th Floor
Philadelphia, PA 19102
www.trovitahealth.com
Trovia Health Science is an emerging medical nutrition company specializing in enteral nutrition formulas and administration devices compatible with ENFit. New Ultrient Ready-to-Feed formulas pre-filled inside the direct connect SAFE-T Feed ENFit Pouch will launch in late 2017. HCPCS have been assigned for the device and formulas effective January 1, 2018.

TUBENMANN, LLC
1250 I Newell Ave
PMB 163
Walnut Creek, CA 94596
Tubenmann.com
Manufactures and sells custom shirts for easy access tube nourishment.

TUBESIES
4511 Ambermill Rd
Nottingham, MD 21236
www.tubesies.com
Tubesies is a pediatric one piece bodysuit that allows clean and easy access to a child’s gastrostomy tube with less disruption to the child/patient. The infant/toddler bodysuit has an opening directly over the feeding port that has a waterproof inner lining with pocket for convenient access to clean gauze/pad.

Who’s Who at Oley

Joan Bishop, Executive Director, Conference Coordinator
bishopj@mail.amc.edu
Joan handles the multitude of tasks it takes to keep Oley running and growing, including budget planning, building relationships, advocacy efforts, fundraising, board development, coordinating the annual conference, etc. She is dedicated to fulfilling the Foundation’s mission and welcomes your ideas, comments, and criticisms.

Roslyn Dahl, Communications & Development Director
dahlr@mail.amc.edu
Roslyn is responsible for raising funds for the Foundation as well as producing Oley publications, coordinating online education programs, and managing Oley’s webinar program and information clearinghouse. Call on her to research your questions or to share ideas for Oley publications (other than the newsletter) or promotions.

Andrea Guidi, Executive Assistant
andreaguidi.oley@gmail.com
Andrea joined Oley in 2013. She has been coordinating the regional conferences, and the awards program and activities for the children/youth at the annual conference. Andrea got her start in nutrition with an undergraduate degree at the State University of New York and a dietetic internship at Sage Graduate School.

Cathy Harrington, Administrative Assistant
harrinc@mail.amc.edu
Cathy is the centerpiece of Oley efforts, managing the member database, answering most of your calls, and meeting the needs of the Foundation office. She is the glue that holds us together! She has experience in patient care and extensive knowledge of the nutrition support arena.

Lyn Howard, MB, FRCP, Co-Founder
In the early 1970s Dr. Howard sent her first patient home on nutritional support, and since then she has been published widely in the home parenteral and enteral (HPEN) arena. With Clarence (“Oley”) Oldenburg’s family support, Dr. Howard started the Oley Foundation in 1983. She is an advocate of the consumer voice in the organization and implementation of HPEN. She is now retired, but she continues research pertinent to HPEN. She is currently working on a national committee to update PN micronutrients. She lives on a farm and is an avid horse driver.

Philip Kellerman, Program Associate
philkellerman.oley@gmail.com
Brand new to Oley, Philip brings thirty years of philanthropic work with migrant farmworkers and immigrants. From 1997 to 2011 he ran his own nonprofit, Harvest of Hope, which distributed emergency and educational financial aid to migrant farmworkers and families. He currently volunteers for Volunteers in Medicine of Great Barrington, taking immigrant patients to medical appointments in New York and Massachusetts.

Darlene Kelly, MD, PhD, Science & Medicine Advisor
After retiring from her role as Medical Director for Home Parenteral Nutrition at the Mayo Clinic in Rochester, Minnesota, in 2012, Dr. Kelly began actively guiding Oley research projects and providing advice on medical-related content for publications. Previously she supported Oley as a board member and research committee chair for more than eleven years.

Lisa Metzger, Editor, LifelineLetter, Director, Community Engagement
metzgel@mail.amc.edu
Lisa has been the editor of the LifelineLetter since 2007. She has been a member of Oley for many years following her two stints on HPN due to hyperemesis gravidarum while pregnant. Lisa’s responsibilities at Oley also include advocacy and outreach efforts. She welcomes your ideas and articles for the newsletter, and input on outreach.

Mary Wootten, Program Associate
marywootten.oley@gmail.com
Mary has been a member of Oley since 2012, and she has frequently volunteered in the Oley office and at Oley events. She has been an Oley Ambassador for two years, providing peer-to-peer support. Mary studied psychology at SUNYIT; is a Reiki master teacher, owner of Lotus Flower Reiki in Troy, New York, and a board member of the S.E.T.H. Foundation; and enjoys volunteering with the Girl Scouts. Mary is the mother of three children ages 9, 7, and 5. Her oldest, Natalie, has had a g-tube since she was sixteen months old due to dysmotility and feeding issues.
Horizon Society Members

Ensuring the Future of Oley
Many thanks to those whose commitment and dedication to the Oley Foundation has led them to arrange a planned gift to help ensure continuing support, service, and advocacy for HPEN consumers and their families.

If Oley was there for you and your family in a substantial way, please consider becoming a member of the Oley Foundation Horizon Society. This is our best chance of making sure Oley is there for the next consumer, and the next. Joan Bishop and Roslyn Dahl can answer your questions this week, or speak to you at any time at (518) 262-5079 or bishopj@mail.amc.edu or dahlr@mail.amc.edu.

Sign up to receive more information by Oley registration.

“Oley holds a special place in my heart, and its future security is important to me. It’s an honor and a privilege to be a part of this group that shares my passion.”

— Joan B.
Travel Scholarships

Many thanks to the following individuals and corporate sponsors for their generous support of scholarships for consumer attendees.

Esther Ann Brown Adler Memorial Scholarship

“What could be bad about a weekend in Boston?” That’s how I rationalized my late wife Esther Ann’s suggestion that we attend something called an Oley Conference. I personally had no desire to spend a summer weekend at a convention talking about ostomy and J-tube products.

Much to my surprise, the convention was a wonderful experience! Many of the seminars and products did not apply to our situation but the camaraderie was overwhelming for Esther Ann and me. Here were people that truly knew what she dealt with on a daily basis. Other than a particularly rough excursion to Provincetown, my strongest memory of our first Oley Conference was a sense of relief that there were thousands of good people handling issues like ours and working on solutions.

Esther Ann and I both were very happy that we had made the decision to attend an Oley Conference and I am happy to support others in our position to do the same.

Jarol Boan, MD, MPH

As a practicing internist, I have seen patients on home PN or EN feeding who struggle with the long-term ramifications of their disease. The constant, unrelenting burden of “hooking up” every night takes a toll on self-esteem, work, and family relationships. Additionally, the financial burden of having a chronic disease cannot be underestimated, even if there is insurance coverage for the solutions. The multiple visits to a physician, increased cost of gas, and incidentals that are not covered by insurance add to the burden of home PN and EN feeding.

I strongly believe in the mission of the Oley Foundation to provide patient support for those affected, as well as educating physicians about home management. I have seen many patients helped by knowing there is an organization that is working on their side. The interaction between patients at an Oley conference is an important positive outcome for the attendees.

My gift to the Oley Foundation is intended to help patients and their families attend the Oley conference, and experience the encouraging exchange of ideas that occurs as a result.

Melissa Chaney Memorial Fund

I am Victor R. Chaney, the husband of Melissa Chaney, an HPN consumer and Oley contributor. Melissa passed away from natural causes on January 30, 2006. For more than nine years, Melissa battled pseudo-obstruction, polymyocitis, and mitochondrial myopathy—transport chain deficiency. Over those years there were many drastic ups-and-downs. In the summer of 2003, Melissa learned of the Oley Foundation’s network of support and outreach. At that time Melissa’s health care management was less than adequate. Her weight was in a downfall—she was 5’1” and she averaged around 75 lbs.

After joining Oley, the change in her health care and overall quality of life was amazing. We credited the education and contacts she acquired at our first annual conference as the turning point in her health. Melissa’s wishes in life were that any memorial donations given after her passing would be directed to Oley. In keeping with those wishes, we established this travel scholarship so that others may have the opportunity she had in attending.

Carol Ireton-Jones, PhD, RD, LD, CNSC, FASPEN, FAND

It is my pleasure to donate to the patient travel grant funds for the Oley Annual Conference. As a professional attendee, speaker and volunteer, I know how important this conference is for consumers. However, until I read the consumer travel grant applications, I did not realize that the ability for a consumer to attend this meeting is potentially life changing—whether they are new or long-term, young or old, enteral or parenteral! Too many people are without the support of another person “just like them.” Finding that person is one of the key benefits of attending.
Carol & Jack Leibee

In April 2005, the Leibees’ lives changed dramatically when Jack was diagnosed with short bowel syndrome. Complications arose frequently. They were astounded by the lack of information available to them. As Jack puts it, “soon we had more questions about my care than answers.” Fortunately they were put in touch with the Oley Foundation. Jack continues, “Oley has provided my wife and me with critical information that has allowed us to make informed decisions about how we treat my condition.” They also found support through Oley conferences. “Talking face to face with other families and health care specialists at these meetings has proven invaluable. We learned tips that made an immediate and lasting difference in my health and quality of life,” he adds. The Leibees are sponsoring a travel grant so they can share this valuable experience with another consumer.

The Oley Foundation

The Oley Foundation is committed to making this life-changing conference as affordable as possible for consumers and their families. To this end, the foundation has underwritten many travel grants, raised funds to keep registration free for consumers and families, and sought sponsors for meals. We hope you return home empowered by improved knowledge, with new friends, and better able to advocate for your health care needs.

Melinda Parker, MS, RD, CNSC

The Oley Foundation can be a lifeline for consumers. My gift of a travel grant is intended to give as many people as possible the opportunity to be a part of this important meeting.

Janet & Christopher Hlatky

We are sponsoring a travel grant for this year’s Oley Foundation Consumer/Clinician Conference because we strongly believe in the positive impact attending the conference can have. Several years ago Janet’s brother got his first tubes. We were all scared and depressed. What did this mean for his quality of life? Would he be able to work? What was his life expectancy? The doctors and nurses at the hospital seemed almost as clueless as we were. Then a social worker mentioned Oley casually in passing. I found out the annual conference (that year in Saratoga Springs, NY) was only a few weeks later. I signed Janet’s brother and me up and practically dragged him there from the hospital!

From the moment we arrived, we found a warm, supportive, and INFORMED group of people. We met lifelong tube users who were in college or working full-time, people who had families, people who, in general, were experiencing an excellent quality of life. We got so many questions answered. We learned about different kinds of tubes and pumps, different kinds of care providers and insurance issues. We left feeling much more positive about life with feeding tubes.

Having Oley around to support and inform is priceless. Helping other tube users get the support they need is important to us.

Corporate/Organization Support for Travel Scholarships

AxelaCare
Kate Farms
Nutrishare
SBS Cure Project
ThriveRx
Research Prize

Nutrishare HomePN Research Prize

Sponsored by Nutrishare, Inc., Oley Silver Circle Partner

The Nutrishare HomePN Research Prize was established in 2007 to encourage clinical studies focused on improving the quality of life for homePN consumers. The 2017 prizes will be awarded to:

**Beth Carter, MD, AGAF**
Texas Children’s Hospital, Baylor College of Medicine
Houston, Texas
*Outcomes from a 12-Week, Open-Label, Multicenter Clinical Trial of Teduglutide in Pediatric Short Bowel Syndrome*

**Vicki M. Ross, RD, PhD, CNSC**
ASPEN
Silver Spring, Maryland
*Central Venous Catheter Infections in Home Parenteral Nutrition Patients: Outcomes from Sustain: American Society for Parenteral and Enteral Nutrition’s National Patient Registry for Nutrition Care*

**Yannick Wouters, MD, PhD-Student**
Radboudumc
Nijmegen, Gelderland (The Netherlands)
*Taurolidine Locking Prevents Catheter-related Bloodstream Infections in Patients on Home Parenteral Nutrition—A Double-blinded Randomized Controlled Trial*

All three of these research papers will be presented during Thursday morning’s main session.
You’ve probably noticed several people milling about the conference wearing ribbons and stickers on their badges. To unravel the mystery, below is a color-coded guide to their significance. Colored stickers ("dots") can be used to identify the diagnosis (or diagnoses) and nutrition therapy (or therapies) your family has experience with—making it easier for you to connect with others with similar experiences. Pick up ribbons and stickers at the registration desk.

THERE'S A COMMUNITY OF OTHERS LIKE YOU. YOU'RE NOT ALONE IN THIS. THERE ARE SHORT BOWEL SYNDROME RESOURCES AVAILABLE THAT CAN HELP.

FIND ANSWERS AND SUPPORT AT
ShortBowelSyndrome.com

ANSWERS

Short Bowel Syndrome (SBS) is a rare, serious and chronic malabsorption condition where patients are unable to absorb enough nutrients and fluids from the food they eat due to the surgical removal of a large part of their intestines. Talk to your doctor and visit ShortBowelSyndrome.com for:

- Information about SBS—what causes it and how it can affect the body
- Living with SBS—tips for diet, travel and managing stress
- Treatment options to discuss with your doctor
- A Doctor Discussion Guide to help start a conversation with your doctor
- An SBS Patient History Tracker to address additional aspects of your treatment and goals

SUPPORT

Sometimes, dealing with SBS can feel isolating. Know that there are others like you and resources available that may be able to help you and your loved ones. Go to ShortBowelSyndrome.com to learn how to connect with resources and discover:

- Video stories of actual SBS patients
- Tips on dealing with emotional stress
- Information for caregivers about how to help
- Helpful organizations for SBS caregivers
- SBS patient resources and organizations

Visit ShortBowelSyndrome.com to learn more and sign up for a free copy of A Patient’s Guide to Managing a Short Bowel.

Neocate® Syneo™ Infant

The first & only hypoallergenic formula with prebiotics & probiotics*

Backed by 3 clinical trials, Neocate Syneo Infant is specifically designed for food-allergic infants and clinically shown to:

- Effectively resolve food allergy symptoms¹
- Support growth and development¹²
- Help balance the gut microbiota of food-allergic infants to be closer to that of healthy, breastfed infants³⁴

Beyond symptom resolution

Learn more at Neocate.com/Syneo

*Prebiotic: Bifidobacterium breve M-16V and probiotic blend of short- and long-chain fructoooligosaccharides

**Infants after 8 weeks of management with standard amino acid-based formula (control) or amino acid-based formula with pre- and probiotics (test); compared to age-matched healthy, breastfed infants. At 8 weeks, levels of both bifidobacteria and Eubacterium rectale + Clostridium coccoide group were measured as a percentage of total fecal bacteria. Test group median levels were different than control group (p<0.001), and were closer to breastfed infant levels vs. control group.

- MCT Oil
- Prebiotic inulin
- Flavors: Vanilla, Chocolate
- HCPCS B4150

GROCERY
- 290cal
- 16g Organic Pea and Rice Protein
- Non-GMO
- Flavors: Vanilla, Chocolate, Coffee
Planning for Your Flight Home

Navigating airport security can be challenging, especially with implanted devices, medical foods, intravenous bags, pumps, ostomies and various medications, etc. We want to remind Oley conference attendees to take advantage of the Transportation Security Administration program TSA Cares.

It is recommended that you call (855) 787-2227 (Weekdays 8 a.m. – 11 p.m. EST, weekends and holidays 9 a.m. – 8 p.m. EST) approximately 72 hours ahead of travel so that TSA Cares has the opportunity to coordinate checkpoint support with a TSA Customer Service Manager located at the airport when necessary. Notifying them of your medical issues, items you are traveling with, times, airline, etc. allows them the opportunity to organize staff accordingly. Note: local airports have been alerted that Oley members will be traveling through for this meeting.

To learn more about TSA Cares visit: www.tsa.gov/travel/special-procedures  Safe travels!
