Our Speakers

Mariah Abercrombie, HPN Consumer
UMC Center for Transplant
Las Vegas, Nevada

Mariah Abercrombie, a Las Vegas resident has been dependent on TPN and hydration fluid since 1984 due to chronic intestinal pseudo obstruction. She has a central line, ileostomy, and g tube for venting. She recently found out she tested positive for the ACTG2 gene mutation. When she is not managing her numerous health issues she is working as a licensed social worker at the UMC Center for Transplant. She enjoys spending time with family and friends and traveling.

Kevin Baskin, MD
Pittsburgh, Pennsylvania

Kevin M. Baskin, MD is an interventional radiologist trained in Pediatric Interventional Radiology at the University of Toronto. With over 25 years of experience, he has written numerous research articles, scholarly papers, and book chapters on central venous access with an emphasis on access in high-risk patients. He is co-author on many multidisciplinary standards and guidelines in the field. He provides leadership on venous diseases and central venous access as the chair of the Central Venous Task Force and of the Renal Diseases Advisory Committee of the Society of Interventional Radiology. He is also founder and director of the VANGUARD (Venous Access: National Guideline and Registry Development) CRN as an MDEpiNet Workgroup and a member of the National Evaluation System for health Technology (NESTcc) Community of Practice. His current work is centered on development of domain-wide data standards, structured reporting and automated data extraction from workflow, and integration of data from affected persons (patients, families and caregivers) and other stakeholders, clinical centers and national outcome tracking networks (like CDC-NHSN) to improve outcomes for chronic access that are important to patients.

Alan Buchman, MD, MSPH, FACN, FACP, FACG, AGAF
University of Illinois at Chicago
Chicago, Illinois

Dr. Buchman is a Professor of Clinical Surgery and Medical Director of the Intestinal Rehabilitation and Transplant Center at UIC. He is also a Physician Clinical Reviewer for Magellan Health, editor for Gastroenterology Clinics of North America, and former Professor of Medicine/Surgery at Northwestern University where he established their IBD and Intestinal Rehabilitation Centers. Dr. Buchman is a graduate of Northwestern and the Chicago Medical School, with residency at Cedars Sinai and fellowships at UCLA and Emory. He has authored nearly 250 peer-reviewed articles and four books and is lead author for the AGA treatment guidelines for SBS/intestinal transplantation.

Doug Farmer, MD, FACS
University of California, Los Angeles
Los Angeles, California

Douglas G. Farmer is currently a Professor of Surgery at the University of California, Los Angeles. He completed his undergraduate degree at Duke University in 1985 and graduated from medical school at the same institution in 1989. From there, he matriculated to UCLA for his General Surgery Residency training which was completed in 1996. He then pursued fellowship training in multiorgan transplantation under the mentorship of Ronald W. Busuttil at UCLA from 1996-1998. He joined the faculty in 1998 and has remained here since. His clinical expertise has been in adult and pediatric liver transplantation, hepatobiliary surgery, intestinal transplantation, and complex gastrointestinal
Dr. Farmer has significant experience in basic science research having investigated the functional absorption of rat small intestine transplants while at Duke University, the cytokine profile in rejection of rat intestinal transplants during his residency at UCLA and ischemia reperfusion injury of both the liver and intestine as faculty at UCLA. He has also conducted numerous retrospective and prospective investigations in the broad areas of liver transplantation and intestinal transplantation. He has authored 165 peer review publications as well as 40 book chapters.

Dr. Farmer is a member of many professional societies including the Society of University Surgeons, American College of Surgeons, American Society of Transplant Surgeons, The Transplantation Society, International Liver Transplant Society, International Pediatric Transplant Association, Intestinal Rehabilitation and Transplant Association, and American Surgical Association. He has served as Councilor and President for the Intestinal Transplant Association and Committee Chair and Councilor for the American Society of Transplant Surgeons.

Cynthia Reddick, RD, CNSC
Coram/CVS specialty infusion services
Sacramento, California

Cynthia has worked in home tube feeding for 20 years facilitating the successful transition of patients from hospital to home while providing positive clinical outcomes. She developed her passion for nutrition support at the City of Hope National Medical Center and developed her expertise at Cedars Sinai and UC Davis Medical Center. She is the National Tube Feeding Manager for Coram CVS Specialty Infusion where she has worked for 12 years and has presented tube feeding related webinars, round tables, case studies and clinical posters for clinicians and at ASPEN, NHIA, and for Oley Foundation consumers.

Jill Taliaferro, RD, CNSC
ThriveRx
Attleboro, Massachusetts

Jill is a CNSC dietitian with over twenty years of nutrition support experience. She joined ThriveRx in the fall of 2007 where she specializes in the care and coordination of individuals requiring enteral and parenteral nutrition in the home. Her specialty lies within the gastrointestinal dysmotility and short bowel populations. She also plays an active role on the pharmacy clinical oversight committee.

Prior to joining the ThriveRx team, she spent five years as a member of the nutrition support team at Beth Israel Deaconess Medical Center in Boston, Massachusetts. She later left the in-patient arena and joined the Home Nutrition Support Team at BIDMC.

Jill graduated from the University of Connecticut with a Bachelor’s Degree in Dietetics from the School of Allied Health. She now resides south of Boston with her family.
Promenade Level – Florentine Ballroom I (Oley conference)

Promenade South – Octavius Ballrooms (AVA sessions)
A Special Thank You To

Our Speakers for taking time out of their busy schedules to share their expertise with us.

Our co-sponsors for generously supporting this regional conference.

Association for Vascular Access (AVA) for collaborating with the Oley Foundation.

Caesars Palace event management staff and catering.

To all our attendees, thank you for coming and we hope to see you at another Oley conference. Safe travels!
