Fluid Technology Group

Regulatory and GMP Audit sessions

- MHRA keynote presentation; Phil Rose MHRA GDMP expert Inspector: Current GMP inspection findings and regulatory expectations in sterile product manufacturing.
- Current findings and challenges in QA Audits, GMP compliance expectations and lessons learned. Andrew Hopkins Abbvie Director Operation Quality, QA Audit and compliance.

Product manufacturing/ Aseptic processing sessions

- Case study: Development of a combined formulation and vial filling platform for Aseptic process filling of a viral vector used in advanced cancer therapy: Oxford BioMedica OXBOX case study. Melanie Bull Process lead & Adam Bird Site QA Manager.
- Development of Aseptic – Containment strategies and containment solutions in Aseptic process filling. Dr Holger Kranenburg Aseptic containment lead at F Ziel GmbH and PHSS Aseptic containment special interest focus group.
- Case Study: A Pharma Industry perspective on what is required to fill quality sterile products for the next 20 years. David Martin Project Sterility Assurance Manager GSK Barnard Castle.

New research sessions

- New research: Challenges in viable colony counting by visual inspection of growth media as part of environmental monitoring programs. Laurent Leblanc Biomerieux Healthcare business, Pharmaceutical and culture R&D Manager.
- New research on Viable but Non culturable bio-contamination (VBNC) and relevance to sterile product manufacturing. Professor C William Keevil University of Southampton. Professor of Environmental Healthcare, natural and environmental sciences.

Practical demonstration

- Video and discussion of Aseptic transfer ports that do not require an operator intervention into an Isolator/ RABS Barrier system.
- Gloveless aseptic transfer systems for single use systems and pre-sterilized components including stoppers to support new Gloveless operation filling platforms.

The annual PHSS challenges in sterile product manufacturing conference comes at a time when the Pharma industry is under challenge with new GMP regulations (revision of Annex 1).

New product types require processing with new technologies that require application of Quality Risk Management to meet GMP compliance and requirements of patient safety.

This conference provides a perspective from regulators (MHRA), Global GMP auditors, advanced therapy manufacturers, technology manufacturers and academics on current challenges.

NOT A CONFERENCE TO MISS.

FREE TO PHSS MEMBERS

The Annual challenges in sterile product manufacturing conference is a PHSS member benefit so free of registration fee to all PHSS members.

WE ARE PLEASED TO BE ABLE TO OFFER YOU A SPACE AT THE EXHIBITION OF THIS ANNUAL EVENT

WE CAN ACCOMMODATE 20 STANDS SO PLEASE BOOK EARLY
£850 + VAT /SPACE

The PHSS Challenges in Sterile Products Manufacture Conference 2019 on the 6th June will provide your organisation with opportunity to network with key decision makers from the pharmaceutical and healthcare industry. Find new customers, discuss ongoing projects, and discover new opportunities by exhibiting at and/or sponsoring the conference and exhibition. Visitors can attend a series of seminars and in the exhibition see what is available on the market, discuss key issues and come away with clear solutions and approaches in mind.

We anticipate approx 100 delegates at this conference, we received great feedback on the quality of visitor to the exhibition stands on our other conferences and would anticipate the same at this event. Don't miss this opportunity.

The Exhibition space will be next to the conference room and refreshments and food will be served in the room. The exhibition places available will have approximately 7f of space which will include a 4ft covered table and room for you to place your own display stand. The stand is sold with 1 free representative, all additional representatives will be charged at £100 + VAT.

You will have access to all the conference sessions during conference day, access to all the session notes, refreshments throughout the day.

There is also sponsorship opportunities, we would like you to be able to maximise as much as possible from all the marketing so book this fast and we can make sure that all your logos are included and we can issue you invitations for your customers.
