President, Photographic Alliance of America • FIAP Liaison Officer for the United States of America

### The FIAP Collections Service

The FIAP Collections Service manages "The Artistic Patrimony of FIAP." These images are the legacy, the heritage of the FIAP and are made up of the photographs submitted to the service by applicants for FIAP distinctions.

A large part of The FIAP Collection (the prints) is stored in the Musée de l'Elysée in Lausanne, Switzerland. Since 2013 FIAP has only accepted digital images with a FIAP Distinction application. These pictures are stored on different hard drives located at different addresses. Since the number of pictures that FIAP receives every

year is exceedingly high, it has been decided that only a limited number of images can be placed on the cloud. These are low resolution images with a FIAP watermark and are accessible to everyone at the web address: <http://collections.fiap.net>. You can use the Country, Distinction Year, or Distinction filters; type "USA" in the Search bar; or go directly to: <http://collections.fiap.net/fotoweb/archives/5000-FIAP/?515=2021&311=USA>.

By contacting the Collections Service, member countries can use full resolution versions of these images (without the watermarks) for exhibitions, publications, etc.

### 2021 PAA FIAP Distinction Images Selected for the Cloud

The Photographic Alliance of America (PAA) submitted 169 images with the 2021 FIAP Distinction Applications. Twenty-four images (14.2%) were selected to be stored on the cloud and several are included with this article. These images are available to be borrowed by FIAP country members for exhibitions or publications, the costs of which are at the expense of the country member; and any posters, flyers, catalogues, etc., must bear the FIAP logo. The author's name, country, and the title of the image must be mentioned together with the projected, displayed, or printed picture. Any commercial use is prohibited.
