Dr. EDUARDO P. MALAGAPO	-	VP Foreign Affairs

FROM : The 68th NatCon Chair, NVP-Technical & National President

SUBJECT : **68th PSME National Conference**

Dear Chapter Presidents,

Everyone is aware that due to the Covid-19 pandemic, the government enforced specific restrictions since March 8, 2020 upon declaration of a state of public health emergency. Such government restrictions include the prohibition of mass gatherings and disallowing activities of membership organizations among other undertakings, programs and projects in order to suppress the spread of the virus.

We wish to inform you that by virtue of Board Resolution No. 2020 - 32 , the PSME National Board cancelled this year's national convention that we traditionally hold and instead approved the holding of the **68th National Conference via a virtual platform** to be held on **October 17 to 24, 2020** with the *theme "Mechanical Engineers: The Nation's Prime Mover of Industrial Revolution 4.0"*.

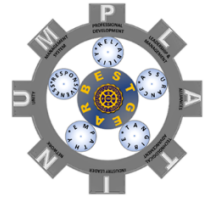

This will be our **first virtual national conference** that will highlight the latest technological updates, researches, and innovations which, we are hopeful, will respond to the new challenges we are facing today.

Aside from our **leading local experts**, we shall have renowned **international speakers** who will share info about emerging technologies in Mechanical Engineering, the impact of Industry 4.0, and other scientific and engineering updates. **Each online presentation shall last about an hour long, inclusive of a 15-minute Question & Answer Session.**

The technical presentations will be spread within this 7-day conference. Opening program will be on October 17 (1:00-5:00 pm.) The 10th National Student Conference will be held on October 18 (whole day). Presentations on October 19-23, 2020 will be from 7:00 – 10:00 pm. Closing Program will be on October 24 (1:00-5:00 pm) where our National Officers will present their accomplishment reports.
