

01. Understanding PSYPACT

Your state has officially enacted PSYPACT legislation. What happens next? In many states, legislation may become effective at a later date after it has been enacted. Check with your state to find PSYPACT's effective date! Once effective, this means you as a psychologist licensed in your state can now apply to practice telepsychology and/or temporary in-person, face-to-face practice under the authority of PSYPACT into other PSYPACT participating states.

02. Choosing your Practice Type

You can apply to practice **telepsychology** and/or to conduct **temporary in-person, face-to-face practice** under the authority PSYPACT. You can choose to practice one or both but each practice type requires a separate application. To practice telepsychology, you will need to obtain two credentials - the *ASPPB E.Passport* and the *Authority to Practice Interjurisdictional Telepsychology (APIT)* from the PSYPACT Commission. To practice temporarily, you will need to obtain two credentials - the *ASPPB Interjurisdictional Practice Certificate (IPC)* and the *Temporary Authorization to Practice (TAP)* from the PSYPACT Commission.
