400 - 21st Century Club Policy

A. Purpose
To raise funds specifically for the use of the educational committee, with these funds reserved only for use in securing new instruction manuals, or for revision of existing ones. The 21st Century Club is a continuation of the Century One Club that was established in the late 1960’s to support the Association’s efforts to provide educational materials for the membership. The Century stands for a limitation to 100 members, each contributing $100.

B. Responsibilities
Use every opportunity to obtain $100 contributions to the club. At all national meetings, extol the virtues of the club, and encourage chapters to honor their past president by enrolling the individual as a member of the club.
