

Refrigeration Engineers and
Technicians Association

Virtual Conference

October 27-29, 2020
All Times are Central Standard

Make the Most of Your Opportunity:

1. Attend as many classes and sessions as you can.

You have the opportunity to earn up to 21 professional development hours in three days!

2. Visit the exhibit hall early and often.

This is where you view the latest technology and newest products. You will also have opportunities to win many great prizes, some valued up to \$1,000. Complete the virtual Bingo to earn 1 PDH.

INSTRUCTIONS:

1. On Monday, Oct 26, go to www.virtualeventplace.com
2. **Log in using the email address** you used to register for the conference
3. Your temporary **password is RETA2020**
4. After logging in the first time, go to your profile and change the default password to a unique, personal one
5. Become familiar with the conference platform and look around
6. Review the schedule. Decide which sessions you want to attend
7. Click on the Welcome Hall link in the Exhibition Hall to view the virtual Welcome Bags
8. Remember that all times listed are Central Standard/Chicago times

Tuesday, October 27

9:00-9:50 CST	Fundamentals, Operation and Trouble Shooting Centrifugal Canned Motor Pumps (1 PDH)
	Intro to 6 CFR 27, The Chemical Anti-terrorism Standard (1 PDH)
	FY Budgeting Process - Capital Budgeting (1 PDH)
	Daily Rounds: What are they really, and why are they important? (1 PDH)
	IIAR Suite of Standards Update (1PDH)
10:00-11:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
11:30-12:20 CST	How to Prevent False Alarms in your Ammonia Gas Detection System with Calibration Lesson (1 PDH)
	Getting the Maximum Benefit from Your Incident Investigation Program and Procedures (1 PDH)
	Critical Tasks for Ammonia Events During Pre-Event, and Emergency Response - the first 30 minutes (1 PDH)
	Refrigeration Pressure Vessels: Design Considerations for an Evolving Industry (1 PDH)
12:45-1:45 CST	General Session and RETA Business Meeting (1 PDH)
2:00-2:50 CST	The Sideport: A Compressor's Little Helper (1 PDH)
	How Do I Cavitate Thee? Let Me Count The Ways (1 PDH)
	Determining if Certain Equipment is a Permit Required Confined Space (1 PDH)
	WiNR Comedy Hour
3:00-4:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
4:30-5:20 CST	Vessels Operating at Temperatures Colder than the MDMT Stamped On the Nameplate (1 PDH)
	FSMA Compliance and Energy Savings with An Effective Building Envelope (1 PDH)
	Compliance Audits: Ensuring the Viability of a Living Program (1 PDH)

Wednesday, October 28

9:00-9:50 CST	Pressure Relief Valve Options/Applications (1 PDH)
	Introduction to 6CFR27, The Chemical Anti-terrorism Standard (1 PDH)
	FY Budgeting Process - Capital Budgeting (1 PDH)
	Daily Rounds: What are they really, and why are they important? (1 PDH)
	IIAR Suite of Standards Update (1 PDH)
10:00-11:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
11:30-12:20 CST	How to Prevent False Alarms in Your Ammonia Gas Detection System - with Calibration Lesson (1 PDH)
	Getting the Maximum Benefit from Your Incident Investigation Program and Procedures (1 PDH)
	Critical Tasks for Ammonia Events During Pre-Event, and Emergency Response - the first 30 minutes (1 PDH)
	Refrigeration Pressure Vessels: Design Considerations for an Evolving Industry (1 PDH)
12:30-2:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
2:00-2:50 CST	Fundamentals, Operation and Trouble Shooting Centrifugal Canned Motor Pumps (1 PDH)
	The Sideport: A Compressor's Little Helper (1 PDH)
	FSMA Compliance and Energy Savings with An Effective Building Envelope (1 PDH)
	Determining if Certain Equipment is a Permit Required Confined Space (1 PDH)
3:00-4:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
4:30-5:20 CST	Pressure Relief Valve Options/Applications (1 PDH)
	Vessels Operating at Temperatures Colder than the MDMT Stamped On the Nameplate (1 PDH)
	How Do I Cavitate Thee? Let Me Count The Ways (1 PDH)
	Compliance Audits: Ensuring the Viability of a Living Program (1PDH)

Thursday, October 29

9:00-9:50 CST	Introduction to 6CFR 27, the Chemical Facility Anti-Terrorism Standard (1 PDH)
	FY Budgeting Process - Capital Budgeting (1 PDH)
	Hot Point by Parker Hannifin: Simplify Your Installation and Service with Parker's Valve Station—See How Easy it is to Select! (1 PDH)
	Daily Rounds, What are they really, and why are they important? (1 PDH)
10:00-11:30 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
11:30-12:20 CST	Getting the Maximum Benefit from Your Incident Investigation Program and Procedures (1 PDH)
	Critical Tasks for Ammonia Events During Pre-event, and Emergency Response - first 30 minutes (1 PDH)
	Refrigeration Pressure Vessels: Design Considerations for an Evolving Industry (1 PDH)
	Hot Point by Danfoss: AAIM Controls: Combining Innovation & Intelligence to Craft Complete Industrial Refrigeration Systems (1 PDH)
12:45-1:45 CST	Awards Banquet
2:00-3:00 CST	Visit the exhibit hall to register for prizes and chat with vendors (1 PDH if you complete the virtual Bingo)
3:00-3:50 CST	Hot Point by GEA North America: Harmonizing for Efficiency. How GEA Equipment Works Together to Reduce Energy Costs (1 PDH)
	Vessels Operating at Temperatures Colder than the MDMT Stamped on the Nameplate (1 PDH)
	Determining if Certain Equipment is a Permit Required Confined Space (1 PDH)
	How Do I Cavitate Thee? Let Me Count The Ways (1 PDH)
4:00-4:50 CST	The Sideport: A Compressor's Little Helper (1 PDH)
	FSMA Compliance and Energy Savings with An Effective Building Envelope (1 PDH)
	Compliance Audits: Ensuring the Viability of a Living Program (1 PDH)
