Founded in 2005, the **Society of Cardiovascular Computed Tomography (SCCT)** is the global professional society devoted exclusively to improving health outcomes through the effective use of cardiovascular computed tomography (CT). SCCT’s membership has grown into an international network of cardiologists, radiologists, technologists, and hospital and practice administrators from 85 countries around the world specializing in cardiovascular CT. Cardiovascular CT is a proven, noninvasive way to reduce costs, improve patient care and help save lives.

**The value of partnership**

Partnering with SCCT gives your company valuable exposure year-round, helping you develop brand awareness and allowing you to build rapport with leading physicians from the United States and around the world. It gives you an opportunity to contribute to the growth and quality of the cardiovascular CT field by supporting our advocacy efforts and the development of high quality education.

Our partnerships with industry help bring value to our members, primarily by strengthening our efforts to develop and deliver quality education and training, and by elevating the cardiovascular CT field in terms of scope and reach.

  - North America: 68%
  - Europe: 14%
  - Asia: 6%
  - Africa, Middle East & Mediterranean: 4%
  - Central America & Caribbean: 1%
  - South America: 4%
  - Australia & New Zealand: 8%
SCCT Courses & Workshops

SCCT hosts educational courses and workshops throughout the year, covering a full range of cardiovascular CT topics. Workshops are hands-on, in-person training taught by a diverse roster of experienced, highly competent faculty. Attendees travel from all over the globe to access the best training and brightest minds in cardiovascular CT to ask questions, enhance skills and build relationships. Most importantly, participants carry the momentum forward to their practices to deliver the safest, most effective outcomes.

Courses & workshops sponsorship

Supporting one or several of these workshops throughout the year, keeps your company’s name top of mind while demonstrating your commitment to furthering education in the field of cardiovascular CT.
