Previous health care experience: Clinical Research Coordinator with Avera Research Institute; CNA with Brookings Health System

Hobbies: Spending time with family and friends, listening to Podcasts, working out, watching too much Tik Tok

Fun Fact: I can wiggle my ears!

Any advice for prospective PA students? Everything happens for a reason, the application process is very competitive. Don't be discouraged if you have to apply multiple cycles.

If I could travel anywhere where would I go? : I would have to say either Marrakesh, Morocco or Positano, Italy. They both seem like great places to immerse yourself in the culture of those countries.

Favorite Class so far: I would have to say Radiology has peaked my interest the most so far. It has been cool to learn how to create possible diagnoses through radiographs. This has also made me ask all my friends and family if I can see any X-rays that they have had done to see if I can diagnose them correctly.
