

2010's

What SEAHO means to me

“ SEAHO means an amazing network of accomplished professionals to connect with across the region. I have been able to work with outstanding and well respected professionals who have a passion for working with students and staff. I have been blessed to tap in to wonderful mentors and people who I can call friends and get advice. They strive to be on the cutting edge of evolving technology and providing the best facilities and services to the students we serve. ..I was able to make acquaintances and friendships across the ten states and beyond. I began by volunteering to be a program moderator at the annual conference e and participating in case study competitions.

SEAHO has a rich history and a broad range of diverse professionals and experiences to tap into. I encourage you to take advantage of the opportunity that is there at your fingertips just for the asking. Make your mark.”

- Dei Allard
