MEMBERSHIP: open to individual HIMSS or SIIM members, including but not limited to: Clinical Informaticists, Clinicians of all Specialties, IT Professionals, Imaging Informatics Professionals, Imaging Vendors, and those interested in the broader specialty of Enterprise Imaging.

PURPOSE:
Enhance patient care by bringing measurable improvements and insights to enterprise imaging. Members share innovative ideas, contribute to advocacy efforts and thought leadership, participate in educational offerings and networking opportunities, develop practical tools and grow professionally.

3 WAYS TO ENGAGE

WEBINARS: Gain knowledge from quarterly EI webinars. Join us on May 26 at 1:00 PM ET for the webinar on 10 Steps to a Build EI System

WORK GROUPS: Innovate with colleagues around these EI topics

1. Photodocumentation Workgroup
2. Data Standards Evaluation Workgroup
3. Multimedia Interactive Content Reporting Workgroup
4. DIAM - Digital Imaging Adoption Model

WHITE PAPERS:
Access research in these popular EI WPs

1. Interoperability and Considerations for Standards-Based Exchange of Medical Images
2. 10 Steps to Strategically Build and Implement your Enterprise Imaging System
3. A Foundation for Enterprise Imaging: HIMSS-SIIM Collaborative White Paper Enterprise Imaging Governance
4. Considerations for Exchanging and Sharing Medical Images for Improved Collaboration and Patient
5. Considerations for Exchanging and Sharing Medical Images for Improved Collaboration and Patient Care
6. Orders Versus Encounters-Based Image Capture: Implications Pre- and Post-Procedure Workflow, Technical and Build Capabilities, Resulting, Analytics and Revenue Capturer
7. The Current State and Path Forward for Enterprise Image Viewing
8. Workflow Challenges of Enterprise Imaging
9. Technical Challenges of Enterprise Imaging
