With more than 20 years of experience in healthcare revenue cycle and operations consulting, Valerie provides strategic, regulatory and operational consulting services to healthcare clients across the country.

Valerie joined Windham Brannon as a Principal in our healthcare consulting practice. In this role, she works to deliver solutions to hospitals, health systems and healthcare clients including population health readiness and implementation, financial transformations, and regulatory support. Valerie's clients have included safety net hospitals, multi-hospital health systems, academic medical centers, community hospitals and life sciences corporations. Her specialties include:

- ICD-10 Readiness
- Patient Access Services
- Case Management and Health Information Management
- Reimbursement
- Patient Financial Services
- Revenue Cycle Operations
- Recovery Audit Contract engagements
- Compliance/OIG Investigations
- Healthcare Audits/Revenue Integrity Audits
- Epic Revenue Cycle Optimization
- Managed Care Contracting

Prior to joining Windham Brannon, Valerie worked in both hospital operations and Big Four consulting. She has served as Vice President for The North Highland Company, a global consulting firm. Valerie has also worked with PricewaterhouseCoopers as Southeast Director of the Revenue Cycle Consulting Practice. She also has spent significant time within clinical environments, serving in positions of leadership at Northside Hospital, St. Joseph's Hospital and DeKalb Regional Medical Center.

Valerie received her M.B.A. from the University of Tennessee and her B.S. in Health Sciences from the University of Kentucky.
