MEMBER SPOTLIGHT
ANTHONY YUE, AIA

I am a member of AIA because participating in the AIA Las Vegas high school design competition ten years ago helped set me on the path to becoming an architect. The AIA continues to facilitate my education and growth as a professional. I also enjoy free lunches.

I am an architect and I make images. I enjoy the visualization side of architecture, whether it be fantastical renderings of a never-to-be-built project or flooring transition details for a tenant improvement.

I started working part-time at Simpson Coulter | STUDIO (then Welles Pugsley Architects) in 2006 while still in high school. After graduating from Cal Poly, San Luis Obispo in 2013, I returned to work at SCS full-time. In the past three years, I have worked on a variety of projects including the Beverly Rogers Literature and Law Building at UNLV, the Las Vegas Day School Gymnasium, and my first project as a licensed architect, Hyperloop One's fabrication facility in North Las Vegas.

Outside of work, I enjoy writing about architecture. I recently finished an article about rendering that was published in PLAT, Rice University’s architectural journal.

What is the most important thing you've learned? Ctrl+S often.

What is your favorite piece of architecture? Why? Villa Arpel from the film Mon Oncle – it’s a reminder to architects to not take themselves too seriously. To prove my point, my second favorite piece of architecture is Pruitt-Igoe.

What person, living or dead, would you most like to talk with? I would have an open discussion with Giovanni Battista Piranesi, Marcel Duchamp, David Bowie, and Sylvia Lavin – just to see what would happen. David Bowie if I had to pick one.

If you were to change one thing about our profession today what would it be? Manage less, do more.
I just returned from the Western Mountain Region (WMR) Conference held in Salt Lake City last week. We had a great delegation from Las Vegas and Northern Nevada. The WMR includes (6) states – Colorado, Wyoming, New Mexico, Utah, Arizona and Nevada and represents a massive geographical area. This region is unique because of the variety of the geography we have the opportunity to work with… from the hot, dry Mojave Desert to the grand beauty of the Tetons. We also work on projects where the animals outnumber the humans – I went to Stephen Dynia’s presentation at WMR and a program requirement for one of his houses required a “moose trough” – were you aware that there is a certain height required to pull this off correctly? We also have growing thriving cities such as Denver, Phoenix, and Las Vegas in our region that provide challenging and creative opportunities for us.

A group of us were fortunate to have dinner with Russell Davidson, FAIA, our current AIA National President. One of our conversations centered around the subject of the recruitment of youth in our profession. This is not a new subject, but it is worth bringing up again. There are statistics that predict we will have an incredible shortage of approximately 25,000 Architects in the next 10 to 15 years. This gap will continue to increase unless we are proactive. Russell is leading a national AIA K through 12 initiatives focused on reaching out to the schools in our region. The AIA can be very impressionable by spending time with young students to excite and entice them about our profession. As we are all aware the early years are so impressionable. I was recently thinking about how the Sports world has been focused on youth for years and identifying early talents… so why shouldn’t we?!!!

Our High Schools in Nevada were forced to drop programs and classes focused on Architecture and design during the economic downturn. However there is a group within our Board and Chapter that have been making a concerted effort to address this subject. This is another great example of how the AIA can make positive impacts within the profession and on our community.

Note that in 2017 (next year) the WMR Conference returns to Nevada in October and we will host it in Las Vegas. Jennifer Turchin, AIA is chairing the event and she and the conference committee are putting together plans for a great conference.

Congratulations to Mark Ryan (currently serving as Nevada AIA’s President) who was unanimously elected as the Treasurer for WMR Council for 2017 and 2018. This is an important position and it keeps our Chapter involved in the Region at the Board level.

Rounding out the year we have some great events and meetings coming up:

- Oct. 19th is the AIA Product Show being held at the 5th Street School – please plan on attending and supporting our vendors and suppliers!
- Oct. 26th we will hold a special “60th Anniversary Celebration” meeting featuring Jim Murren, CEO of MGM Resorts International speaking about “Modern Gaming and the Future of Las Vegas”. It will be held at the Four Seasons Ballroom and promises to be a fantastic evening.

Hope to see you at these events!

GREENING THE WMR
AIA Las Vegas is hosting the Western Mountain Region conference in October 2017 and we want to make the conference as sustainable as possible. Our committee has the following ideas but would love to hear from the membership on creative ways ideas to green our convention.

- Recycling paper
- Electronic versus printed materials
- Transportation options (like a bike share between the hotel and the 5th Street School)
- Refillable water bottles instead of bottled water

If you are interested in helping Green the WMR please contact Jennifer at Jennifer@codagroupinc.com with your ideas!
CALL FOR ENTRIES

Celebrating the best in Contemporary American Architecture through Excellence in Design

Timeline:
Call for Entries - August 1 thru October 5, 2016
Entry Forms & Fees Due - October 5, 2016
Design Submittals Due - November 10, 2016
Late Submittals Due - November 14, 2016 (Additional $100 Fee)
Jury - November 21-23, 2016
Awards Gala - December 14, 2016

NOVEMBER MEMBER MEETING
1986-2001 – THE FASTEST GROWING CITY IN THE COUNTRY

The period from 1986 to 2001 was an era when Las Vegas was recognized as the Fastest Growing City in the Country. With an average of 4 – 5,000 new residents each month, the Las Vegas valley was filling up and new residents were demanding bigger homes, better transportation, schools, churches, shopping centers, strong infrastructure and much more. The population grew from around 600,000 in 1986 to over 1.4 million by 2001. And the number of visitors to our city more than doubled in that fifteen year period, going from 16 million to over 35 million.

The architects who were working in Las Vegas during this period were involved with some of the most innovative and exciting projects ever created. The Strip was alive with activity and this period is known as the most constructive decade in Las Vegas history. It includes the construction of Bally’s, Excalibar, Mandalay Bay, Four Seasons, Harrah’s Las Vegas, the Luxor, New York, New York, The Mirage, The Monte Carlo, The Paris, Treasure Island and the Stratosphere Tower. In addition Las Vegas architects designed and built 123 Elementary, Middle and High Schools in the Las Vegas Valley. That’s an average of 8 schools a year for a fifteen year period, making Clark County School District one of the largest in the country.

Join us on Wednesday, November 16th and hear the real story of Las Vegas from those who were most actively involved in creating it during this dynamic period.

The meeting will be held in the auditorium at the Historic Fifth Street School
401 S. Fourth Street, downtown Las Vegas, with a reception at 5:30PM, program starts at 6:30PM.
No Charge for AIA Members. Guests are $30.00. RSVP No-Shows will be invoiced.

CLICK HERE TO RSVP TODAY!
In the 2017 AIA Legislative Session, AIA Nevada will be working for you. AIA Nevada is leading an effort to revise language in NRS 108 during the 2017 legislature that will clarify and level the playing field for architects and other providers of design services in priority disputes. Our legislative committee and representatives from ACEC, ASLA and other affiliated organizations will be seeking to develop revisions that clarify lien positions for designers, and help lenders understand pre-existing encumbrances that may exist on a property prior to executing a deed of trust.

According to the current NRS 108, architects and design professionals are placed in a disadvantageous position with regards to protection from the law in lawsuits that arise from client non-payment due to projects not being completed. Architects have limited protection from statutory mechanical liens because the Nevada Supreme Court has historically (and continues) protecting the priority of lender’s deeds of trust if no actual construction at the project begins.

In 2011, the Nevada Supreme Court affirmed its holding that NRS 108 protects lenders rights first against mechanical liens recorded by architects and design professionals in spite of specific first-hand knowledge of design work done and a mechanical lien perfected prior to a deed of trust. The ruling in J.E. Dunn Northwest v. Corus Construction, affirms a 30-year-old rule and actually expands the protections for lenders and leaves architects with less protection and diminished rights to enforce mechanic’s liens - even though the Nevada Legislature’s 2003 revisions to NRS 108 (Nevada’s Mechanic’s Lien Statute) recognized that architects were entitled to the same protection as traditional contractors under mechanic’s lien laws.

AIA Nevada, our affiliated partners and our lobbyist, Kaempfer Crowell are currently researching lien laws and working to draft language that will clarify the law for architects, engineers, landscape architects, interior designers and other related initial project services.

WHAT DO YOU HAVE TO SAY?

The AIA FORUM is your newsletter.

It is provided as a member benefit and to help you stay informed on Chapter happenings, meetings, ideas and activities. We invite your participation in the form of articles and editorials.

If you have information you’d like to share or if you’d like to comment on an article, or provide new information or a point of view, please let us know via email to Randy Lavigne, Hon. AIA Executive Director, AIA Nevada/AIA Las Vegas rlavigne@aianevada.org

CONGRATULATIONS TO
MARK RYAN, AIA
TREASURER
AIA WESTERN MOUNTAIN REGION

The WMR Council held the regional business meeting at the WMR Conference in Salt Lake City, on Friday, September 24th, where Mark Ryan, AIA was unanimously elected Treasurer to serve on the Executive Committee from 2017-2018. As President of AIA Nevada, Mark has been an active member of the Council this year, representing Nevada members. Mark also served as President of the AIA Las Vegas Chapter for two years 2014 and 2015.

Mark will take over the duties as Treasurer on January 1, 2017. He succeeds Eric Roberts, AIA who has served in the position for the last two years, 2015 – 2016.

Other members of the 2017 WMR Executive Committee will include Tonia Salgado, AIA, Senior Director, Patrick Panetta, AIA, Junior Director, Katie Wilson, AIA, Secretary, Nate Hudson, Assoc. AIA, Associate Director, Heather Wilson, CACE Representative.

Nevada can be proud of the leadership provided by AIA Members from both AIA Las Vegas and AIA Northern Nevada.

WELCOME NEW MEMBERS!

The Urban Sketchers next meeting will be on Saturday, October 22nd, from 9:00am to 11:00pm.

They will be meeting at the Neon Museum Main Boneyard (770 N. Las Vegas Blvd., South, LV, NV. 89101)

RSVP REQUIRED TO ATTEND

RSVP today to eroberts@sh-architecture.com

You should bring your own sketch supplies, some water and your water colors (if you’d like). Don’t forget some water (to drink), something to sit on (you’ll be glad you did) and Sunscreen (never too late)!

See you October 22nd!

CONGRATULATIONS TO
MARK RYAN, AIA
TREASURER
AIA WESTERN MOUNTAIN REGION

GET IN ON THE ACTION JOIN AN AIA COMMITTEE

Want to get involved? There’s no better way than to join an AIA Committee.

2017 WESTERN MOUNTAIN REGION CONFERENCE
Chair: Jennifer Turchin, AIA

We need your help in determining the theme, speakers, programs, tours and events. The planning starts now and the execution of the fabulous event in the fall of 2017.

To join the committee contact rlavigne@aianevada.org
This is the fourth of several articles that I will be sharing in the newsletter as part of the COTE Committee’s ongoing effort to keep the membership informed on all things sustainable. I will be discussing the many practical improvements that we have made to reduce our home’s total energy demand by more than 70 percent (compared to a new energy code compliant home as built today).

This article will focus only on plumbing and HVAC changes that we have made to both reduce our overall energy load and to improve the indoor air quality of our desert home.

One of the first plumbing revisions that we made to our home was to add a small Grundfos circulation pump and timer on the hot water line above our water heater and add a pressure activated bypass valve located below the most distant lavatory in our master bedroom. This simple system circulates hot water (from the hot water line to the cold water line) between 6 AM and 11 AM each day so that we would have hot water quickly when we wanted to take a shower. This saves many gallons of water and it also saves energy on water heating each day.

See the following website for more information:

I also consulted the DSIRE (Database of state incentives for renewables and efficiency) website for energy conservation incentives program for Nevada and noted that NV Energy offered financial rebates for changing the electric motor on our central HVAC fan to a BPM (Brushless Permanent Magnet) motor combined with an extended operation WCC (Western Cooling Control) controller. This new BPM electric motor saves approximately 50 percent electricity on heating, up to 28 percent electricity on cooling and up to 80 percent electricity on continuous ventilation. The new WCC controller saves approximately an additional 15 percent electrical energy without sacrificing comfort. The key to this new controller is altering the amount of time the fan runs (by 6 to 10 minutes) after the outside condenser part of the air conditioner (compressor) cycles off. The amount of time the fan runs is keyed to the amount of time the compressor runs.

We had our HVAC maintenance company make these revised HVAC installations and we subsequently received a $350 rebate for the new BPM motor and a $50 rebate for the new WCC controller from NV Energy.

See the following websites for more information:
http://programs.dsireusa.org/system/program/detail/1415

At the same time, the electric motor for our exterior condenser unit was drawing significant amperage and heating up, so we also changed it out to a premium efficiency motor, which cut this amperage load by about half and extended the condenser motor life for many more years.

Both my wife and I have varying degrees of pet allergies as well as seasonal pollen and dust allergies. Therefore, we have added a special Lennox MERV 16 air filtration system for our central HVAC fan unit. This filter removes 99.9 percent of all air born particles like pollen, dust and pet dander. It removes 90 percent of all air born germs and bacteria. And it removes and destroys approximately 50 percent of all air born chemical odors and vapors, from sources like pets, cleaning products and cooking appliances.

See the following website for more information:
http://www.lennox.com/products/indoor-air-quality/air-purification/pureair
http://www.blueair.com/us/air-purifiers/classic-403

So that we could sleep more comfortably during heavy pollen times as well as the typical hot weather–dry air, we recently also added a Blueair 400 series HEPA air filter unit and a Boneco humidifier in our master bedroom.

See the following website for more information:
http://www.proctoreng.com/innovative-products/young-mans-laundry
http://www.proctoreng.com/innovative-products/WCC.html

These simple plumbing and HVAC changes to our existing residence have occurred over several years, but they have definitely made living in the harsh Mojave Desert much more comfortable and healthy.

On the road of life, we've always been there.
Thank You
For 5 YEARS of your business!

We want to personally thank each and every one of you for working as a team with 501 Studios over the past 5 years. We are so pleased to be serving you and your business!
We are looking forward to continuing our teamwork in years to come.

In celebration of our 5 year anniversary, we want to extend some special discounts your way!
• Save 15% on a full day photo shoot •
• Save 10% on all other projects •

On all new projects booked Sep 1st - November 1st 2016
Discount code: 5 Years

501 Studios has moved!
We also are excited to share our new office and studio location at
4270 Cameron St. Suite 3
Las Vegas, NV 89103

The addition of a studio allows us to serve your photography needs by offering studio time...anytime!
That means more flexibility for scheduling:
• Product photography
• Executive portraits

501 is still offering executive portraits at the low rate of $150.00.

Having a brand new office does not mean we are ground!
Remember 501 photography is still mobile and offers:
• Architectural and real estate photography
• Hotel and casino photography
• 360 virtual tours
• Time-Lapse
• Videography
• And much much more!

The sky is the limit... or is it?! Because 501 is airborne with
• Aerial photography
• RC aerial copter video and photography

Call or email today and receive our 5 year celebration discount on your next project!
(702) 892-9300

As you can see we are located in the heart of the city, just behind the Palms Hotel and Casino.
DesignCell is a unique and fast growing professional services firm with a project portfolio that spans from coast to coast. Our technical team is comprised of a blend of experienced architects and rising professionals, all of whom are accomplished in the field and energetic about our current and future projects. We are actively looking for an additional Architectural Project Manager with the skills, vision and character to support on-going growth.

As a DesignCell Project Manager, you demonstrate your leadership and strong technical skills to deliver exceptional projects on time and on budget. You manage multiple projects through all phases of design and construction administration, while overseeing design and production work. You communicate an coordinate project consultants, vendors, city officials and clients.

**REQUIREMENTS**
- 7+ years of relevant architecture experience
- Degree in Architecture or related field
- Professional License or certification
- Knowledge in latest versions of Revit
- Knowledge of building codes and structures
- Extensive knowledge of architectural, interiors principles/practices & construction
- Excellent communication and people management skills

**COMPENSATION & BENEFITS**
DesignCell supports diversity and quality of life – it’s important to the company to keep a work / life balance. With that in mind, we generally keep regular business hours ad offer competitive salaries and a substantial benefits package for full-time employees.

**CONTACT US**
If you feel this may be the career opportunity for you, please send your resume and portfolio to inbox@design-cell.com

Due to the large volume of candidates, only qualified applicants will be contacted. No Phone Calls Please.

Friedmutter Group, an award winning, internationally recognized Architecture, Interior Design and Master Planning firm is currently seeking Senior Architectural Job Captains for our Las Vegas, Nevada office.

Friedmutter Group is looking for candidates that have experience in large-scale, multi-use projects; casino and hospitality experience preferred.

Candidates must be self-motivated, possess strong organizational and multi-tasking skills; and also be comfortable in a deadline driven environment. Minimum 5 years experience with Revit software is required.

Please email resume and salary requirements to judy@fglv.com

No Phone Calls Please

Excellent opportunity in an exciting industry! Friedmutter Group Architecture, Interior Design, and Branding Studios is looking for a Senior Contract Manager in our Las Vegas office.

This position will be responsible for managing day to day architectural operations. Primary responsibilities include management and administration of proposals to clients, including fact finding, establishing scope of work, communication and negotiation with consultants, and establishment of fees, and financial billing, including gathering information from management and assisting project accounting on percentage complete and billing amounts. Other responsibilities include processing of AIA documents and review and response of client contracts, and communication to clients on payments as needed.

10 years experience in architectural operations and college degree are preferred.

Strong Microsoft Office skills required.

Excellent benefits include medical, dental, vision, 401(k), life insurance, supplemental disability plans, paid time off and flexible spending.

Interested and qualified candidates, forward resume and salary requirements to annah@fglv.com and andrea@fglv.com.
