

Legislative and Regulatory Committee Update

The Legislative and Regulatory Committee is excited to announce that we have formed a new subcommittee to tackle the regulation of Unmanned Aircraft Systems (UAS) in mosquito control operations. [Joel Buettner](#) has taken the lead, and is seeking volunteers to serve on the committee.

If you are currently using unmanned aircraft in your program, or plan to in the future, and are interested in assisting Joel as he educates the AMCA membership on their regulatory status, please let him know as soon as possible. We look forward to hearing from you.
