The next State Representative for District 46 should understand the issues facing our communities.

Ken will work hard for our counties from the state level for better bridges and roads which will enhance economic development. Ken has the experience to be effective.

Ken will work hard for the betterment of our schools, to educate our children. This is why he was endorsed by the Mississippi Association of Educators.

Ken Strachan knows how to work across party lines and build relationships for a better tomorrow. As a former mayor he has the experience to be effective from day one for the issues that matter most, job creation, better bridges and roads, and better schools.

"I know our best days are ahead of us, and we need the hardestworking, most effective and experienced representation to see it through. That is what I will be. I respectfully ask for your vote and support on Tuesday, November 3, 2015."
