International Association of Insurance Professionals

4 WAYS IAIP CAN BENEFIT YOU

Connect with an IAIP local association near you to learn more about how IAIP can benefit you.

1 Network, Network and Network some more

IAIP is composed of successful, driven insurance professionals actively involved in shaping the future of the industry. IAIP members are: your future boss, hiring manager and colleagues. In the ultra-competitive job market that young professionals face today, it's no secret: "It's not what you know, it's who you know". Get involved with IAIP and enjoy countless networking opportunities.

2 Test the Waters

It's normal for students to change their major once or twice. But it's in your best interest to change your mind earlier rather than later. Whether through personal one-on-one mentoring sessions, virtual meetings, webinars or guest speaker presentations, IAIP provides a multitude of ways to learn about the industry firsthand.

3 Build Your Resume

Grow your experience and your portfolio. Learning opportunities exist at every level of IAIP: volunteer on a committee to strengthen your leadership skills, manage the social media presence for a local association to build your marketing skills, or earn one of the many nationally recognized designations IAIP offers through our diverse education programs.

4 Scholarships

The NAIW Legacy Foundation offers national scholarships to student members. Additionally, there are many local associations that award scholarships to active student members on a local basis.
