Brandkonsulten Kjell Fallqvist AB Receives the Society of Fire Protection Engineers 2010 David A. Lucht Lamp of Knowledge Award

New Orleans – October 4, 2010 – Brandkonsulten Kjell Fallqvist AB was awarded the Society of Fire Protection Engineers (SFPE) David A. Lucht Lamp of Knowledge Award at its Annual Awards Luncheon.

The Lucht award honors an organization, company or individual that has contributed substantially to increasing the opportunities for higher education in fire protection engineering. The award is named for David A. Lucht in recognition of his 25 years of leadership and dedication to the Worcester Polytechnic Institute Center for Firesafety Studies and his tireless efforts on behalf of the fire protection engineering profession.

Through its business concept, principally fire safety design in buildings, Brandkonsulten Kjell Fallqvist AB contributes a developing environment for all their employees. Since 2006 Brandkonsulten Kjell Fallqvist AB has been awarding students at the Fire Protection Engineering program at Sweden's Lund University with scholarships. The scholarships intention is to stimulate the students in their present studies and to reward great efforts at the program. There are three different scholarships:

• The first is in memory of Professor Ove Pettersson and it goes to a student with great knowledge in fire protection and excellent grades from the university.

• The second goes to a student who's been working for increased gender equality and is in the name of Kjell Fallqvist and his wife Åsa Fallqvist.

• The third is named after Professor Robert Jönsson and it goes to a student who has had a difficulties in financing his/her studies but still continued the courses and also finally graduated

About Society of Fire Protection Engineers

Organized in 1950, the Society of Fire Protection Engineers (SFPE) is the professional organization that represents engineers engaged in fire protection worldwide. Through its membership of over 5,000 professionals and 65 international chapters, SFPE advances the science and practice of fire protection engineering while maintaining a high ethical standard. SFPE and its members serve to make the world a safer place by reducing the burden of unwanted fire through the application of science and technology.

More information about SFPE can be found at www.sfpe.org.
