Participate in Adobe Connect Meetings
Adobe Connect is an enterprise web conferencing solution for online meetings, eLearning and webinars used by leading corporations and government agencies. This Visual Quick Start Guide provides you with the basics participating in an Adobe Connect meeting, virtual classroom, or webinar.

Attend an Adobe Connect meeting
1. It is recommended that you test your computer prior to attending a meeting. You can do this by going to http://admin.adobeconnect.com/common/help/en/support/meeting_test.htm
2. The Connection Test checks your computer to make sure all system requirements are met. If you pass the first three steps of the test, then you are ready to participate in a meeting.

3. If you do not pass the test, perform the suggested actions and run the test again.

Join a meeting
1. You have likely received an email invitation with meeting access information. When the meeting time arrives, click on the link or enter the URL into your favorite web browser.
2. The meeting login screen appears. If you do not have a username or password for the Adobe Connect account, choose Enter as a Guest, type in your first and last name, and click Enter Room.
3. The meeting launches in your browser. If the meeting host has not yet arrived to the meeting or meeting security requires the host to approve your attendance, you will be placed in a waiting room.
4. Once the meeting host accepts you into the meeting, the meeting room interface appears.

Tip: Adobe Connect only requires that you have an internet connection, a web browser, and Adobe Flash Player version 10.1 or greater to attend a web conference. Adobe Connect supports nearly any operating system including Windows, Macintosh, Linux and Solaris, as well as the most widely used browsers including Internet Explorer, Firefox, Safari, and Chrome.

Change your status
Within a meeting, you can also change your status to provide feedback to the presenter and other attendees.

To change your status, click the arrow on the Status Options dropdown list on the Application Bar and select your desired status option.

If you select an option above the line such as Agree or Step Away, you status remains until you choose Clear Status. If you choose an option below the line such as Speed Up or Applause, your status automatically clears itself after a number of seconds.

When you set your status, an icon appears next to your name in the Attendees pod.

Chat
To send a message to everyone, simply type your message in the chat pod and hit enter or click the send icon.

If the meeting host has enabled private chat, you can send messages to a specific attendee or group within the meeting. To do this, use the Attendees pod to hover over the name of the attendee you’d like to chat with, and select Start Private Chat. Alternatively, you can use the Pod Options menu in the top right hand corner of the pod to select an individual or group by clicking Start Chat With.

Private chat messages show up in additional tabs to make it easy to distinguish between private and public chat.

If the host is using a Q&A pod instead of a Chat pod, then all messages are moderated and private chat is not available.

Issue | Solution
--- | ---
I cannot get into the meeting | If you are having trouble joining a meeting try the following:
1. Enter the meeting as a Guest user by entering in your First and Last Name in the Guest field.
2. Click the Help link on the Meeting Login page. This takes you to the Test Meeting Connection page where you can verify that your computer meets all necessary requirements. If you do not pass the test you will be given instructions for what you need to do.
3. Make sure popup blocking software is not blocking your meeting window.
4. You may be using a proxy server. To resolve this in Internet Explorer, select Tools > Internet Options > Advanced tab. Then enable the setting Use HTTP 1.1 through proxy connections. After doing this, clear your cookies, close all browser windows and attempt to re-enter the meeting.
