Chicago — The National Institute of Pension Administrators (NIPA), an association representing retirement plan administration business owners and staff members, will be addressing the changes in Washington and what the impact on the retirement plan industry will be at the 2017 NIPA Annual Forum & Expo (2017NAFE), May 21-24, 2017 in Las Vegas.

Every year, the NAFE provides attendees with innovative solutions for strengthening and growing their businesses. This year, the 2017NAFE will be putting a strong focus on the industry's most pressing pension administration issues, such as the impact of the regulatory changes on the industry.

With a new President in office, Dr. David Kelly, B.A., CFA, M.A., Ph.D., Chief Global Strategist & Head of the Global Market Insights Strategy Team, J.P. Morgan, will discuss the state of the economy and the outlook for 2017. In this general session, Dr. Kelly will cover the current conditions of the financial markets and effects on the retirement industry.

Additional notable sessions include:

- Washington Update
- How the DOL Rule Applies to Service Providers
- How the DOL Rule Applies to TPAs

"With the major changes in Washington, it is important that we are able to provide clear updates and direction for the 2017NAFE attendees," said Laura J. Rudzinski, NIPA Executive Director. "This highly anticipated event always provides enriching education, professional development and knowledge-sharing for those that attend, but this year the policy updates are really going to be the center of attention so that our attendees have the tools they need to move their businesses forward."

As part of NIPA's effort to enhance quality education in the retirement plan industry, the 2017NAFE also offers attendees the opportunity to earn up to 21 NIPA CPE credits and 21 ERPA CPE credits as well as credits from JBEA and NASBA.

In addition, NIPA offers a virtual component of the 2017NAFE providing employers a cost-effective option for even more staff to receive continuing education. The 2017NAFE Virtual Conference, May 21-23, 2017, is a way for everyone to experience the event first-hand by participating in a robust schedule of live-streaming sessions, including sessions that cover policy updates, from the convenience of their home or office.
