Registration for AMEC 2022 is Open!

Save Money & Get Your Early Bird AMEC Ticket Now

The 2022 Annual Medical Education Conference (AMEC) will be held in-person in Orlando, Florida at the Rosen Shingle Creek Resort on April 13-17, 2022. AMEC has continually been a national cornerstone event for minority medical students and professionals. Through this year's theme, "The Emergence: Achieving Purpose in an Era of Health Advocacy, Equity & Reform," we plan to bring you more engaging workshops, plenary sessions, and networking opportunities to meet and socialize with your peers in-person. Take advantage of the Early Bird member pricing for the best savings!

AMEC 2022 Attendee Guide.

PMI Coordinator Application

*Deadline: October 29, 2021*

**Apply Here**

If you are passionate about increasing the capacity of the SNMA’s Pipeline Mentoring Institute (PMI) to reach more underrepresented K-12 and premedical students across the country and supporting the overall mission of the PMI, then you should apply to serve as the PMI Coordinator! The PMI Coordinator position is open to any medical or premedical student who is dedicated to strengthening the pipeline of URM students into medicine and other STEM-related fields. Applicants should be organized, attentive to detail, and have availability in their schedules to devote to this position. If you are interested in serving as the PMI Coordinator, completed applications are due on or before Friday, October 29th by 11:59 PM EST. We look forward to reviewing your applications! If you have any questions related to the above programs/events, please contact the PMI Fellow at pmi@snma.org

Pipeline Mentoring Institute (PMI) Webinar Series

*October 31 & November 7, 2021, 8 PM EDT*

**Attend Here**

Please join the Pipeline Mentoring Institute (PMI) for our PMI Webinar Series throughout October and November! If you are interested in learning more about the PMI and how your SNMA or MAPS chapter can start a program with schools in your community, we invite you to attend our webinar series to learn from chapters that have successfully implemented programs in their communities. We will continue to showcase chapters that have successfully started and maintained pipeline programs on their campuses. Come learn about all the various pipeline programs housed under the PMI for K-12 students!
We are excited to partner with Sketchy to offer a special promotion for national SNMA Active members through the Sketchy Scholars Program. Sketchy Scholars' mission is to support underrepresented students to achieve academic success and promote diversity among healthcare practitioners.

**Exclusive SNMA Member Benefit**
Sketchy is offering current national SNMA Active members one free month of their **Medical Preclinical** and **Medical Clinical** programs, and a 50% discount off the regular plan price. Combined, that's 12 months for 50% plus one month free!

**You must signup for this offer by Friday, November 5, 2021.**

**Eligibility Criteria**
Recipients must be current National SNMA Active dues-paying members. If you are not yet a National SNMA member and would like to join, visit the [SNMA Membership page](http://snma.org/Membership).

**Accessing this Member Benefit**
- Log into your [SNMA account](http://snma.org/Membership).
- Complete the form at [snma.org/Sketchy](http://snma.org/Sketchy). You must enter your SNMA Member ID # and select your desired program.
- After you submit, you'll receive a link to Sketchy's registration page to create your account.

**What is Sketchy?**
Sketchy is a revolutionary visual learning platform. We turn what you need to know into engaging, artful stories that you'll remember forever. Rooted in an ancient memorization technique called the 'method of loci,' The Sketchy Method is proven to accelerate learning, increase retention, and improve test scores. (Trust us, we're doctors.) Our comprehensive one-of-a-kind curriculum covers everything you need to know to conquer any subject—and have fun while doing it.

For any questions regarding SNMA member benefits, please contact [memberinfo@snma.org](mailto:memberinfo@snma.org).
Health Policy and Advocacy (HPA) Grant

*Apply by December 10, 2021*

Our Health Policy and Legislative Affairs subcommittee, Finances & Grants, is excited to announce the release of our biannual Health Policy and Advocacy (HPA) Grant! This fall we will sponsor a SNMA or MAPS chapter that is excited to develop an event in alignment with SNMA initiatives and goals concerning policy, advocacy, and activism! Application is due December QR code in the flyer! Email: hplafinances@snma.org for any questions. Applications are to be submitted to HPLAfinances@snma.org by December 10, 2021, 11:59 PM EST. Please email Jasmine Jones at HPLAfinances@snma.org with any questions pertaining to submission, project ideas, advocacy etc.

JSNMA Accepting Submissions for Winter Edition!

*Deadline: December 21, 2021*

Do you have a passion for writing about important issues and current events? If so, now is your chance to shine! The Journal of the Student National Medical Association (JSNMA) is looking for submissions for our upcoming Winter edition.

The theme of this edition is: Global Health Concerns: A Focus on Communities in Need. Please feel free to submit all articles, poems, etc. pertaining to the topic of global health issues and concerns. **The call for submissions is open September 22nd, 2021 — Tuesday, Dec 21st, 2021.**

Be sure to include a picture of yourself as well as a short biography alongside your submission. Please submit all submissions, questions, & concerns to the JSNMA Managing Editor, Tori Owens, at: JSNMA@snma.org.

Rutgers Cancer Institute of New Jersey Presentation for Medical Students on Global Health in Oncology

*November 1, 2021, 8 PM EDT*

Register Here. On Monday 11/01/2121 at 8pm EST, the Oncology Virtual Series for Medical Students will present "Global Health in Oncology," featuring Mac Longo, Shilpen Patel, Raymond Mailhot Vega, and Sara Beltran Ponce. To attend, pre-register online at the above link.
Cambridge Health Alliance, Division of Continuing Education in Psychiatry: Treating Couples

*November 5-6, 2021, 8 AM-5 PM EDT*

Register by November 4. Cambridge Health Alliance, a teaching hospital of Harvard Medical School, offers CME/CE conferences throughout the year on a variety of topics in psychiatry and mental health. Our Treating Couples conference will center on the latest advances in treatment and research in couples’ therapy. Dynamics of relationships and patterns of interaction that negatively impact relationships will be discussed, as well as a variety of treatment interventions to demonstrate what works best for various scenarios. Full details are at www.cambridgecme.org. We are pleased to offer SNMA members complimentary viewing access to these courses. Please email cme@challiance.org with the subject line "SNMA free access offer" to register.

Just One Giant Lab: Rethinking PPE

*November 12, 2021, 12 PM EST*

Register Here. A conversation towards more inclusive equipment in healthcare. It’s no secret now: PPE — while crucial— is wasteful, often ill-fitting, inflicting extreme discomfort to users, especially healthcare and front-line workers. We believe this must change. You're invited to a conversation around how this can be solved, especially through the lens of one of an open-source project: Basic Respirator. Hunter Futo of Materiael had initially developed this novel design which has now grown to also include an app designed for better fitting of respirators. We are hosting this conversation + user experience testing with healthcare workers, medical practitioners to help Basic Respirator gather feedback from prominent stakeholders to help make this solution as relevant and impactful as possible. Join us on November 12th (Friday) at 12PM EST to gain and give insight around the important issue of advances in PPE. Looking forward to having you join the conversation!
MEETINGS & WEBINARS

Cambridge Health Alliance, Division of Continuing Education in Psychiatry

*November 12-13, 2021, 8:50 AM- 5PM EDT*

Register by November 11. Cambridge Health Alliance, a teaching hospital of Harvard Medical School, offers CME/CE conferences throughout the year on a variety of topics in psychiatry and mental health. Our Traumatic Stress conference will provide an overview of perspectives and approaches in the delivery of trauma treatment. Research findings and theories on traumatic stress will be presented from comprehensive neurobiological, sociocultural, and ecological perspective. All details are available at [www.cambridgecme.org](http://www.cambridgecme.org). We are pleased to offer SNMA members complimentary viewing access to these courses. Please email [cme@challiance.org](mailto:cme@challiance.org) with the subject line "SNMA free access offer" to register.

Benefits of the Hertz Fellowship Full tuition equivalent for up to five years $34,000/year stipend - higher if combined with another fellowship Powerful community of 1,200+ peers, Special events, workshops, and networking opportunities Whether you know someone who might be a great candidate or plan on applying, we hope you’ll explore the resources below and share them with your friends and colleagues. You can always email us with any questions at fellowshipinfo@hertzfoundation.org.

Global Health Fellowship
*Apply by December 15, 2021*

The International Affairs Committee is hosting the 2nd Global Health Fellowship! This educational and research opportunity will allow fellows to learn from national experts! The theme for this year is: Equity and Sustainability in Global Health. Choose from one of two tracks: Medical Spanish or Global Health Systems. You will culminate this experience with a poster presentation at AMEC. This opportunity is open to both Pre-Med and Medical Student Members.
American Society for Clinical Pathology

Learn More. Membership to the American Society for Clinical Pathology (ASCP) is free to medical students and an excellent way to explore pathology as a career. Pathology has workforce shortages in both physicians and laboratory professionals. What you may not know is that, in the United States, there is a current massive shortage of forensic pathologists. In fact, the minimum needed in the US to support our medicolegal system is about 1200 but there are only 500 MD pathologists boarded in Forensics that are working today. And that was BEFORE the pandemic… In an effort to increase the forensic pathology workforce, the National Center for Forensics, funded by the National Institutes of Justice, is working on multiple interventions to inform and assist the choices of pre-med, medical students, and pathology residents that may be interested in forensic pathology or that have not considered it as a career. As part of that program, we have developed a flyer which details the current job availability, the salaries, and, most importantly, the myriad of loan repayment programs that are offered, many of which are specific to forensic pathology. With the challenge of mounting medical school debt, many medical students choose residencies not out of passion but out of financial necessity. This should not be the case. We want every medical student to be aware of these loan repayment programs so that those few who are truly passionate about forensic pathology can make the most informed decision. Please check out the flyer for more information about loan repayment programs in forensic pathology!

California Department of Public Health Preventive Medicine Resident

*Apply by October 31, 2021*

The Preventive Medicine Residency Program offers a one to two-year program in General Public Health/Preventive Medicine. The PGY2 training year is spent obtaining an MPH for those residents who do not already have one, followed by a PGY3 training year working with experienced public health physician mentors to gain practical public health experience at the State or a local health department. The residency is geared for physicians who are interested in a public-sector career addressing public health, as well as achieving health equity in disadvantaged and underserved communities of California.

Prevent Blindness A.S.P.E.C.T. Engagement Program

*Apply by November 12, 2021*

Call for Applications – A.S.P.E.C.T. Patient Engagement Program

Prevent Blindness is currently seeking individuals to participate in the third cohort of our A.S.P.E.C.T. (Advocacy, Support, Perspective, Empowerment, Communication, and Training) Program, which equips participants with knowledge, skills, and confidence to become advocates for vision and eye health – at the individual, peer-to-peer, community, state, or national levels. The program will be held virtually and consists of 10 sessions held across a five-month period (November 2021-March 2022). Individuals living with any eye disease or condition (including family members of children under 18 living with these conditions) are eligible to apply; as are allies (loved ones, nonprofit representatives, multidisciplinary clinicians, researchers, etc.). Participants will receive an honorarium for their participation. To learn more about A.S.P.E.C.T., please visit its web page. If you or someone you know is interested in participating, please complete this short application (or contact Julie Grutzmacher at 312.363.6032 if unable to access the online application).
NRMP Seeking Student Director to Serve on NRMP Board

*Apply by December 1, 2021*

The National Resident Matching Program (NRMP) is seeking nominations of individuals for election to one student director position on its Board of Directors. The nominee must be a student in a U.S. DO medical school. Learn more about application requirements and complete the application [here](#). The deadline for receipt of nominations is December 1, 2021. Nomination packets must be complete, ordered as outlined above, and saved in PDF format before they are submitted to admin@nrmp.org. Incomplete packets will not be advanced for consideration. All information will be considered by the NRMP Nominating Committee, which will prepare a slate of candidates for election by the Board of Directors at its January 2022 meeting. The term of service will begin on July 1, 2022, with onboarding activities commencing April 2022. The Board meets three times each year, usually in October, January, and May. Board members also serve on one or more committees, which may entail additional travel if the work cannot be accomplished by email or telephone conference call. NRMP Bylaws prohibit staff members of nominating organizations from serving on the Board. Please contact the NRMP directly at admin@nrmp.org with questions.

Kaiser Permanente Northern California Summer Residency Program: Intro to Integrated Health Care

*Apply by January 31, 2022*

Session 1: June 4-24, 2022, or Session 2: July 9-29, 2022. Current rising 2nd-year medical students demonstrating a superior interest in community health, and who seek to promote culturally sensitive care are being sought for this unique opportunity. As an IIHC participant, you will virtually learn from our outstanding faculty and resident physicians, including our support staff, and will be exposed to culturally sensitive care and population-based health care. Medical students demonstrating a superior interest in community health and who seek to promote culturally sensitive care are encouraged to apply. We are pleased to offer two virtual training sessions covering a Deliberate Practice framework, accessing, and sustaining an optimized performance and learning state, and developing a commitment and meta-outcome to support student focus, intrinsic motivation, and Step 1 Exam Success. The second component will focus on developing an Exam Preparation Plan and Schedule, applying learning strategies, and test-taking strategies to support their Exam preparation activities. Applicants are asked to state their current interests in medicine and express their current involvement in serving diverse communities. Finalists will be virtually paired with physician mentors in various clinical settings of their choice. Students will also participate in weekly online didactic and reflection sessions. Please indicate in your application in which session you can participate (Session One or Session Two).
MEDICAL STUDENT RESOURCES

**Psychiatry Research Residency Track, UC San Diego**

**Apply Here.** The UC San Diego Psychiatry Research Residency Track is a NIMH-funded, 4-year Residency program that includes substantial protected time for mentored research training. Our program aspires to educate future Academic Psychiatrists, and to help nurture their early academic careers by building important skills in research, clinical care, teaching and mental health advocacy. Interested senior medical students are encouraged to contact the Program Director, Neal Swerdlow, MD, PhD ([nswerdlow@ucsd.edu](mailto:nswerdlow@ucsd.edu)).

Attend via Zoom

AAMC Health Professions Week 2021 #HPW2021

*November 4-11, 2021*

Visit our website and learn more in our flyer. HPW is a nationwide collaboration between today’s healthcare and education organizations designed to provide reliable, accessible resources to explore careers in the health professions. The event is open to anyone considering a future in the health professions, so we encourage career changers, high school, college, and graduate students to register for #HPW2021, in addition to the educators, advisors, and family members supporting those who aspire to be, or are currently, on this career path. This year’s event will provide attendees with a one-stop-shop to explore 20+ unique career options via a personalized website with curated, on-demand content introducing the participating health professions, as well as access to exclusive live events featuring opportunities for one-on-one career advice.

LMSA-SNMA Pre-med Mentorship Service

Learn more. We just went live with 1-on-1 mentorship appointments that are available to all pre-med students who identify as URM or disadvantaged. When booking on the website, they will meet with one of our participating medical students and receive help with practice medical school interviews, general pre-med advising, or medical school applications! If you have any questions, please contact region1maps@snma.org.
Carolina Higher Education Opportunity Programs (CHEOP) Office - UNC Chapel Hill
