
ASBA 2019

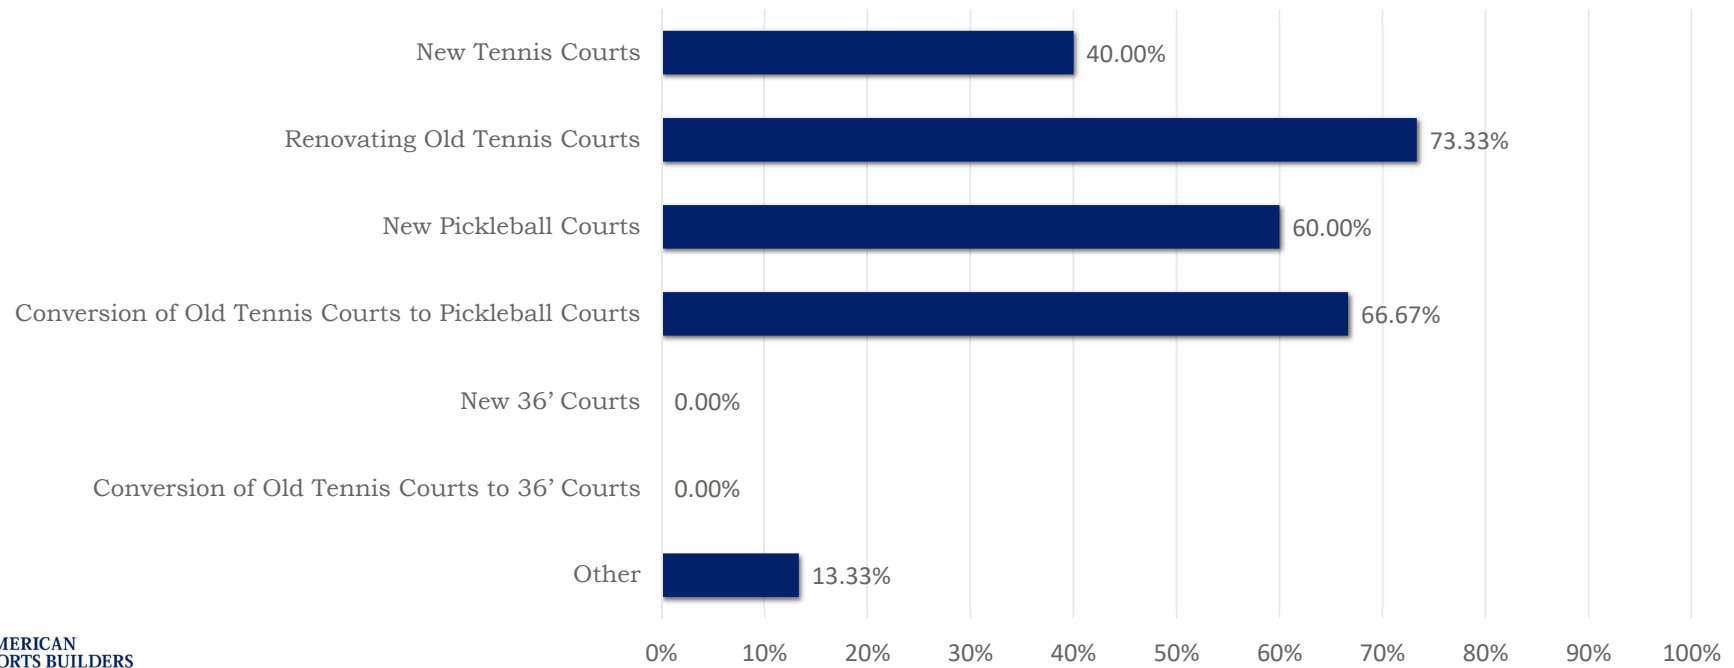

Tennis Quick Pulse Survey Results

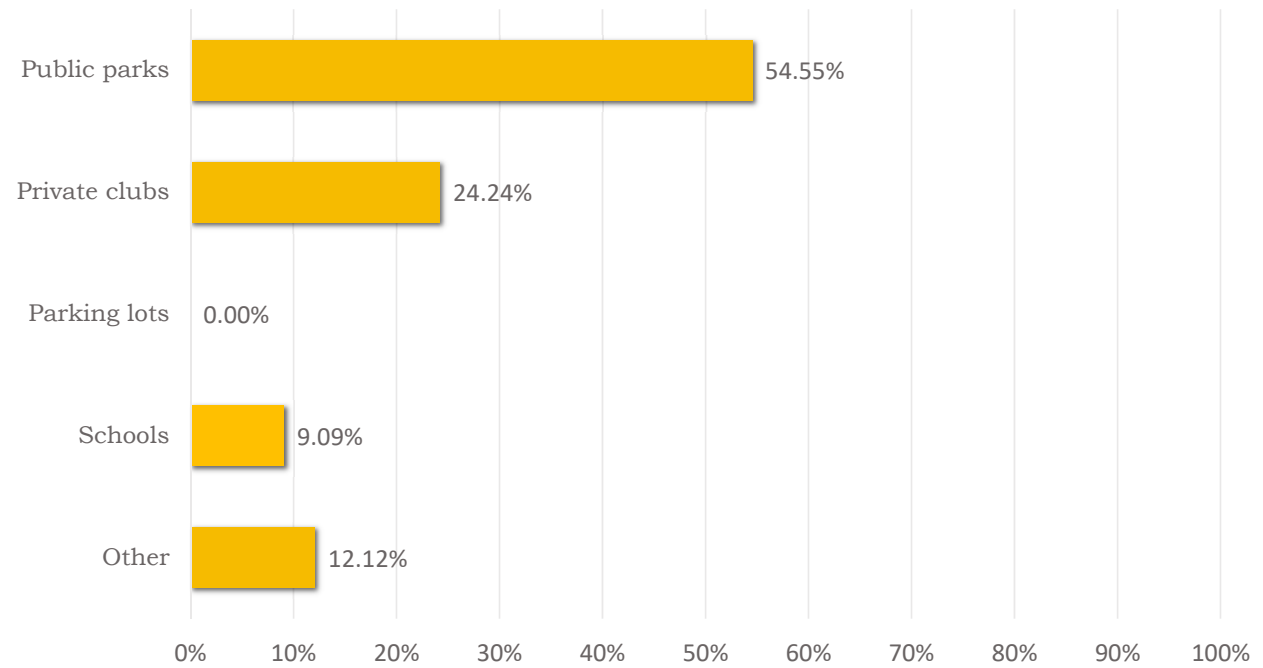

Describe your 2019 season:

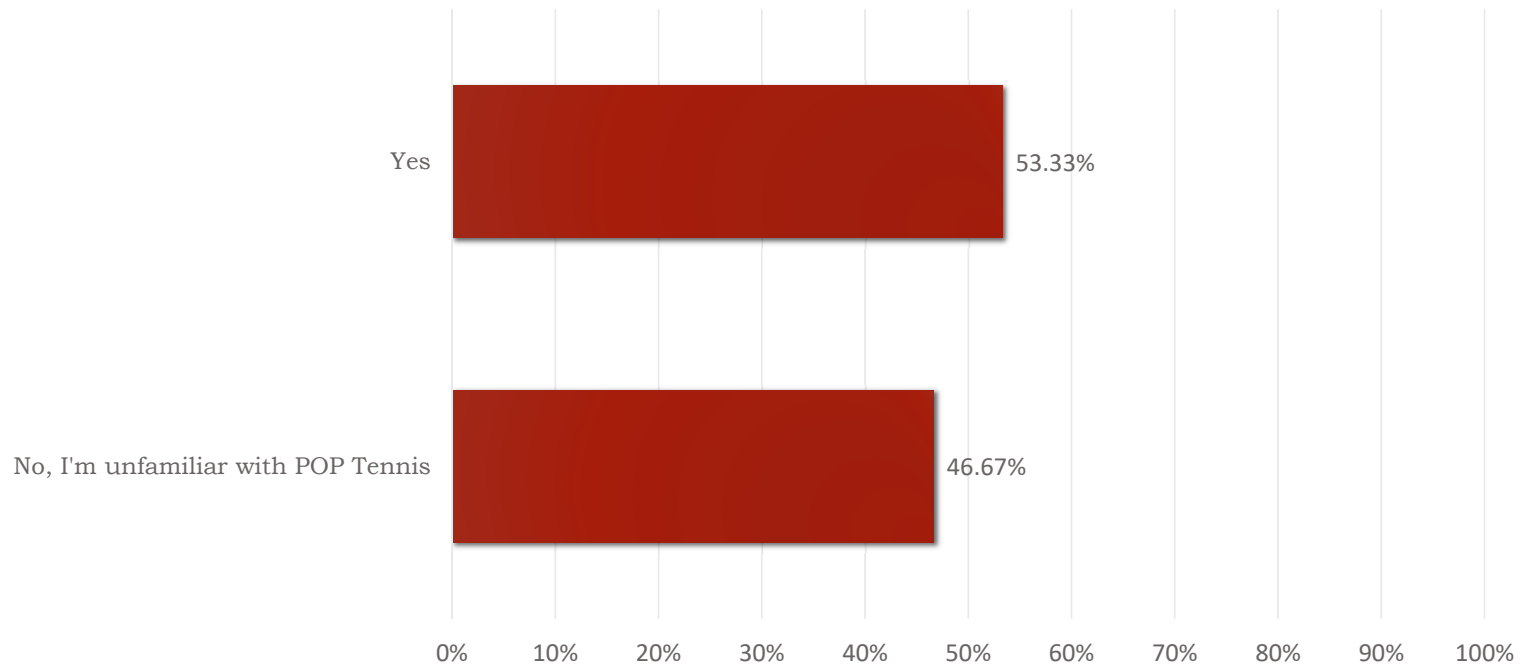

If you have experienced an increase in business over 2018, to what do you attribute the growth?

Regarding any pickleball courts that you have built or converted in 2019, which describes the most common location of those courts:

Are you aware of a new short court tennis format called POP Tennis on 60 ft. courts?

What recent trends are you seeing as a builder, or new/frequent requests from your customers?

1. Private Pickleball Courts In Backyards
2. Pickleball Stand Alone Courts Being Built
3. Good Economy Sure Helps
4. Pickleball Lines
5. We Are Experiencing Much More Premature Cracking In Our Asphalt/Acrylic Courts. Asphalt Quality Is Down And The Acrylic Quality/Strength Is Up Which Equals Cracking.
6. Combine Tennis & Pickleball Courts
7. Pickleball
8. More Pickle Ball Striping And Building Pickle Ball
9. Pickleball Conversion
10. Incorporating Pickleball Lines On Tennis Courts
11. Touch Tennis
12. We Are Seeing More And More Asphalt Failures Within A Year Of Construction
13. With The Growth In Pickleball And The Very Loose Building Guidelines And Court Conversion Guidelines Through The ASBA I Am Frequently Put Into An Uncomfortable Situation With Clients. More Detailed Regulations And Diagrams On New Court Construction And Court Conversions Would Be Greatly Helpful
14. Pickleball Courts
15. Continued Expanding Interest Pickleball
16. Pickleball Continues To Be Strong, But Not Seeing Any New Trends
17. Mill, Overlay And Re-Coat Old Courts
18. Rooftop Courts Pickleball Courts
19. The Interest In Pickleball Is Continuing To Grow, But Tennis Is Also Remaining Strong
