ASBA Announces Post-Tension Concrete Workshop

Forest Hill, MD – The American Sports Builders Association (ASBA), the national organization for design professionals, builders and suppliers of materials and equipment for athletic facilities, has announced an all-new educational program, open to any member of the sports facility industry. **Post Tension Concrete Workshop**, a two-day offering, will be presented in person from February 8-February 9, 2023 at the Doubletree Dallas Market Center in Dallas, Texas.

This two-day workshop, presented in cooperation with the Post-Tensioning Institute (PTI), is designed specifically for installation and inspection of single strand unbonded post-tensioning (PT) systems for residential and light commercial slabs-on-ground. It outlines the basic body of knowledge that should be possessed by all personnel involved in the installation and stressing of PT in these light foundation systems. Hands-on training is included.

The program requires the student to demonstrate a proficiency of the necessary skills for working with single strand unbonded post-tensioning systems for slab-on-ground construction. *This program is worth 8 recertification points for ASBA Certified Builders and 12 points for licensed professional engineers.*

This is a full certification workshop and participants will be eligible for certification depending on their final exam score and field work experience. More information is available on the [PTI website](#) on the information page for the Level 1&2 Slab-on-Ground Installer & Inspector area.

[Full information on the event, as well as registration details, is available at this link.](#)

The ASBA is a non-profit association comprised of design professionals, builders and suppliers engaged in sports facility construction. The ASBA sponsors informative meetings, publishes newsletters, books and technical construction guidelines for athletic facilities, and keeps its members aware of the latest developments in the industry. It also offers voluntary certification programs in tennis court, running track and sports field construction.

For information on the ASBA, as well as on its publications, activities and upcoming meetings, please contact the Association at 2331 Rock Spring Road, Forest Hill, Maryland 21050. The phone number is 443-640-1042. The ASBA also may be reached electronically via its website: www.sportsbuilders.org, or via e-mail at info@sportsbuilders.org.
