Position Papers – Courts

Algae, Molds and Mildew
Algae, mold and mildew can be avoided by using cultural control methods.
To read more, [click here](#).

Asphalt Acceptance - Recreational Courts
It is the responsibility of the asphalt contractor to supply a base that meets specifications.
To read more, [click here](#).

Asphalt Impurities
Crushed stone or sand aggregate used in asphalt may contain contaminants.
To read more, [click here](#).

Asphalt Stripping
Stripping in hot asphalt mix has become a more serious problem over the past decade.
To read more, [click here](#).

Athletic Shoe Marks
Tennis shoes will leave scuff marks on tennis courts.
To read more, [click here](#).

Below-Slab Vapor Retarders
Concrete slabs should be isolated from infiltration of in-ground water, which requires the use of an effective below slab vapor retarder system.
