

Recent Changes to Psychotherapy Research

With the increasing number of submissions to Psychotherapy Research, we have decided to expand the team of associate editors for the journal from four to six. We are delighted to announce that Catherine Eubanks and Dana Atzil-Slonim will be joining Psychotherapy Research as associate editors later this year. Please join us in thanking them for their service to SPR in this capacity. We also want to thank Heidi Levitt for her commitment to and excellent work on behalf of the journal. Heidi will be ending her term in June. We are happy to welcome Isabel Caro, who will begin as an associate editor next month.

One other note: because Psychotherapy Research is now published in double issues, the table of contents begins on the back cover and continues on the inside. As always, please let us know of any comments, questions, or suggestions you may have regarding the journal. Here is the link to the newest issue:
