

Online CEU Opportunities

The online industry related courses listed below are acceptable sources of continuing education credit to meet IKECA certification renewal requirements. Online courses allow you to earn your continuing education credit in an on demand format, as your schedule allows. The amount of continuing education credit awarded is a direct reflection of the course duration. You must provide a certificate of completion for each course when reporting your CEUs at the time of IKECA Certification renewal.

You may utilize online courses from other sources as well as long as the content is directly related to the KEC industry. [Contact IKECA](#) prior to completing a course if you have any question regarding its eligibility.
