**ASCA NAMES 2025 TOP 50 AGE GROUP TEAMS --
SWIMMAC, PLEASANTON SEAHAWKS, ORINDA AQUATICS
TOP RESPECTIVE TEAM SIZE LISTS**

The American Swimming Coaches Association has announced the 2025 Top 50 Age Group Teams for large, medium and small size teams. Working collaboratively with USA Swimming, who provided the data, ASCA updated the criteria to recognize more teams and more coaches who are doing a great job in age group development.

This year, the recognition is based on athletes ages 10-14, and all clubs were ranked using both the total number of athletes achieving AAA and AAAA+, as well the percentage of athletes achieving AAA & AAAA+ time standards relative to their club size. The dataset was provided via SWIMS by USA Swimming and stays consistent with their definition of a large team (401+ swimmers), medium team (200 – 400 swimmers), and small teams (less than 199 swimmers). Time standards were weighted using data provided by the USA Swimming Data Science team.

Congratulations to the Top 50 Age Group Teams in each category!
